Inability to file Annual Report on Form 20-F for the year ended December 31, 2019 by the original deadline of April 30, 2020 due to circumstances related to COVID-19.

KBS Fashion Group Limited (the "Company") will be unable to file its 2019 Annual Report on Form 20-F (the "20-F") by April 30, 2020 due to circumstances related to COVID-19. All of the Company's operating subsidiaries, employees and facilities are located in China which has been affected by the outbreak of COVID-19 since early 2020. COVID-19 has caused Company business and government agencies throughout China to suspend operations or operate with reduced workforce in shifts for limited periods of time. As a result, the Company is unable to complete and file the 20-F without undue hardship and expense to the Company until after April 30, 2020.

The Company is relying on the Securities and Exchange Commission (the "SEC") order under Section 36 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), dated March 25, 2020 (Release No. 34-88465) to extend the due date for the filing of the 20-F until June 14, 2020. The Company will work diligently to submit the 20-F as soon as practicable but no later than 45 days after the original due date.

The Company is supplementing the risk factors previously disclosed in the Company's Annual Report on Form 20-F for the year ended December 31, 2018 with the following risk factor:

Our business operations have been and may continue to be materially and adversely affected by the outbreak of the coronavirus (COVID-19).

An outbreak of respiratory illness caused by COVID-19 emerged in late 2019 and has spread within the PRC and globally. The coronavirus is considered to be highly contagious and poses a serious public health threat. The World Health Organization labeled the coronavirus a pandemic on March 11, 2020, given its threat beyond a public health emergency of international concern the organization had declared on January 30, 2020.

Any outbreak of health epidemics in the PRC or elsewhere in the world may materially and adversely affect the global economy, our markets and business. For most of the first quarter of 2020, we scaled back operations, as our employees worked remotely or at premises in shifts for limited periods of time in response to nationwide lockdowns and quarantines. We only resumed full operations since late March. The pandemic has also depressed customers' demand for our products and services, since during the past few months, businesses across China largely suspended or reduced operations. As a provider of casual menswear in China, we are sensitive to the overall business environment and vulnerable to any market downturns.

With the coronavirus epidemic expanding globally, the world economy is suffering a noticeable slowdown. Commercial activities throughout the world have been curtailed with decreased consumer spending, business operation disruptions, interrupted supply chain, difficulties in travel, and reduced workforces. The duration and intensity of disruptions resulting from the coronavirus outbreak is uncertain. It is unclear as to when the outbreak will be successfully contained, and we also cannot predict if the impact will be short-lived or long-lasting. The extent to which the coronavirus impacts our financial results will depend on its future developments. If the pandemic is not effectively controlled in a short period of time, our business operation and financial condition may be materially and adversely affected as a result of slowdown in economic growth, operation disruptions or other factors that we cannot predict.

These and other forward-looking statements are subject to risks, uncertainties and other factors that could cause actual results to differ materially from those statements. Such risks and uncertainties are, in many instances, beyond the Company's control. Forward-looking statements, which are presented as of the date of this filing, will not be updated to reflect events or circumstances after the date of this report except as required by law.
