BANTEC, INC. AND SUBSIDIARIES
CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2021
(Unaudited)

NOTE 1 - NATURE OF OPERATIONS

Bantec, Inc. is a product and service company targeting the U.S. Government, state governments, municipalities, hospitals, universities, manufacturers and other building owners. Bantec also provides product procurement, distribution, and logistics services through its wholly-owned subsidiary, Howco Distributing Co., (“Howco”) (collectively, the “Company”) to the United States Department of Defense and Defense Logistics Agency. The Company established Bantec Sanitizing which offers sanitizing products and equipment through its new online web store bantec.store and through Bantec Sanitizing franchises. The Company has operations based in Little Falls, New Jersey and Vancouver, Washington. The Company continues to seek strategic acquisitions and partnerships that offer an opportunity to grow sales and profit.

On April 24, 2018 the Company amended its articles of incorporation, filed with the Delaware Secretary of State, changing the Company name from Drone USA, Inc. to Bantec, Inc., which was accepted by FINRA on February 19, 2019. Bantec, Inc. filed a change of name to Bantec, Inc. and to effect a reverse stock split (of the common stock) of 1 for 1,000 on August 6, 2019, which became effective on February 10, 2020. All share and per share related amounts in the accompanying consolidated financial statements and footnotes have been retroactively adjusted for all periods presented for the effect of the reverse split.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND GOING CONCERN

Basics of Presentation and Principles of Consolidation

The accompanying unaudited consolidated financial statements include the accounts of Bantec, Inc. and its wholly-owned subsidiaries, Drone USA, LLC (inactive), Bantec Construction LLC (inactive), and Howco. All significant intercompany accounts and transactions have been eliminated in consolidation.

The accompanying unaudited condensed consolidated financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) and the rules and regulations of the Securities and Exchange Commission for interim financial information. Accordingly certain information and footnote disclosures normally included in financial statements in accordance with GAAP have been omitted. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation have been included. Operating results for the nine months ended June 30, 2021 are not necessarily indicative of the results that may be expected for the year ending September 30, 2021. The unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements as of and for the year ended September 30, 2020 and footnotes thereto included in the Company’s Annual Report on Form 10-K filed with the SEC on January 12, 2021. The consolidated balance sheet as of September 30, 2020 contained herein has been derived from the audited consolidated financial statements as of September 30, 2020, but does not include all disclosures required by GAAP.

The accompanying unaudited consolidated financial statements have been prepared assuming the Company will continue as a going concern, which contemplates the recoverability of assets and the satisfaction of liabilities in the normal course of business. For the nine months ended June 30, 2021, the Company has a net loss of \$1,153,122 and used cash in operations of \$911,075. The working capital deficit, stockholders' deficit and accumulated deficit was \$15,891,953, \$16,144,304 and \$32,227,891, respectively, at June 30, 2021. Furthermore, on September 6, 2019 the Company received a default notice on its payment obligations under the senior secured credit facility agreement (see Note 9), defaulted on its Note Payable – Seller in September 2017 and has since defaulted on other promissory notes. As of June 30, 2021, the Company has received demands for payment of past due amounts from several consultants and service providers. It is management's opinion that these matters raise substantial doubt about the Company's ability to continue as a going concern for a period of twelve months from the issuance date of this report. The ability of the Company to continue as a going concern is dependent upon management's ability to further implement its business plan and raise additional capital as needed from the sales of stock or debt. The Company has continued to implement cost-cutting measures and restructuring or setting up payment plans with vendors and service providers and plans to raise equity through a private placement, and restructure or repay its secured obligations. The accompanying consolidated financial statements do not include any adjustments that might be required should the Company be unable to continue as a going concern.

BANTEC, INC. AND SUBSIDIARIES
CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2021
(Unaudited)

Use of Estimates

The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Significant estimates include the allowance for bad debt on accounts receivable, reserves on inventory, valuation of the lease liability and related right-of-use asset, valuation of stock-based compensation, the valuation of derivative liabilities and the valuation allowance on deferred tax assets.

Fair Value Measurements

The Company follows the FASB *Fair Value Measurements* standard, as they apply to its financial instruments. This standard defines fair value, outlines a framework for measuring fair value, and details the required disclosures about fair value measurements.

Fair value is defined as the price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date. The standard establishes a hierarchy in determining the fair value of an asset or liability. The fair value hierarchy has three levels of inputs, both observable and unobservable. Level 1 inputs include quoted market prices for identical assets or liabilities in an active market that the Company has the ability to access at the measurement date. Level 2 inputs are market data, other than Level 1, that are observable either directly or indirectly. Level 2 inputs include quoted market prices for similar assets or liabilities, quoted market prices in an inactive market, and other observable information that can be corroborated by market data. Level 3 inputs are unobservable and corroborated by little or no market data. The standard requires the utilization of the lowest possible level of input to determine fair value and carrying amounts of current liabilities approximate fair value due to their short-term nature. The Company accounts for certain instruments at fair value using level 3 valuation.

Description	At June 30, 2021			At September 30, 2020		
	Level 1	Level 2	Level 3	Level 1	Level 2	Level 3
Derivative Liability	-	-	\$ 125,057	-	-	\$ 128,628

A roll-forward of the level 3 valuation financial instruments is as follows:

	Derivative Liabilities
Balance at September 30, 2020	\$ 128,628
Reclassification of derivative liability upon conversion	(8,851)
Changes in fair market value during the nine months ended June 30, 2021	5,280
Balance at June 30, 2021	\$ 125,057

The warrants were issued to a convertible note holder in November and December 2017 and initially determined to be equity instruments and recorded as note discount and as additional paid in capital. On June 4, 2018 the anti-dilutive provision of the warrants took effect and based on the new conversion formula management determined the warrant became a derivative liability and reclassified the Fair Value on June 4, 2018 from additional paid-in capital to derivative liability with fair market value changes recognized in operations for each reporting date. The derivative liability associated with the warrants is \$125,057.

Cash and Cash Equivalents

Cash equivalents consist of liquid investments with maturities of three months or less at the time of purchase. There are no cash equivalents at the balance sheet dates.

Accounts Receivable

Trade receivables are recorded at net realizable value consisting of the carrying amount less the allowance for doubtful accounts, as needed. Factors used to establish an allowance include the credit quality of the customer and whether the balance is significant. The Company may also use the direct write-off method to account for uncollectible accounts that are not received. Using the direct write-off method, trade receivable balances are written off to bad debt expense when an account balance is deemed to be uncollectible.

Inventory

Inventory consists of finished goods, which are purchased directly from manufacturers. The Company utilizes a just in time type of inventory system where products are ordered from the vendor only when the Company has received sales order from its customers. Inventory is stated at the lower of cost and net realizable value on a first-in, first-out basis.

Property & Equipment

Property and equipment are stated at cost and depreciated over their estimated useful lives. Maintenance and repairs are charged to expense as incurred. When assets are retired or disposed of, the cost and accumulated depreciation are removed from the accounts, and any resulting gains or losses are included in income in the year of disposition. The Company examines the possibility of decreases in the value of these assets when events or changes in circumstances reflect the fact that their recorded value may not be recoverable. Depreciation expense was \$2,458 and \$2,772; \$7,374 and \$8,316 for the three and nine months ended June 30, 2021 and 2020, respectively.

Long-Lived Assets

Long-lived assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying value may not be recoverable. Impairment is determined by comparing the carrying value of the long-lived assets to the estimated undiscounted future cash flows expected to result from use of the assets and their ultimate disposition. In instances where impairment is determined to exist, the Company writes down the asset to its fair value based on the present value of estimated future cash flows.

Deferred Financing Costs

All unamortized deferred financing costs related to the Company's borrowings are presented in the consolidated balance sheets as a direct deduction from the related debt. Amortization of these costs is reported as *interest and financing costs* included in the consolidated statement of operations.

Revenue Recognition

Effective October 1, 2018, the Company adopted Accounting Standards Codification ("ASC") 606, Revenue From Contracts With Customers, which is effective for public business entities with annual reporting periods beginning after December 15, 2017. This new revenue recognition standard (new guidance) has a five-step process: a) Determine whether a contract exists; b) Identify the performance obligations; c) Determine the transaction price; d) Allocate the transaction price; and e) Recognize revenue when (or as) performance obligations are satisfied. The Company's initial application of ASC 606 did not have a material impact on its financial statements and disclosures and there was no cumulative effect of the adoption of ASC 606.

The Company sells a variety of products and related services (packaging) to government and other entities. The purchase orders received specifies each item and its manufacturer; the Company only needs to fulfill the performance obligation by shipping the specified items. No other performance obligations exist under the terms of the contracts. The Company recognizes revenue for the agreed upon sales price when the product is shipped to the customer, which satisfies the performance obligation.

The Company sells drones and related products manufactured by third parties to various parties. The Company also offers technical services related to drone utilization and performs other services. The Company began offering insulation jackets for commercial and government facilities to insulate and monitor heating and cooling equipment. Contracts for drone related products and services and insulating jacket related sales will be evaluated using the five-step process outline above. There have been no material sales for drone products or other services for which full compliance with performance obligations has not been met. Sales of insulation jackets have not yet commenced. Upon significant sales for drone products and services and insulation jackets, the Company will disaggregate sales by these lines of business and within the lines of business to the extent that the product or service has different revenue recognition characteristics.

Stock-based compensation

Stock-based compensation is accounted for based on the requirements of ASC 718 – "*Compensation – Stock Compensation*", which requires recognition in the financial statements of the cost of employee and director services received in exchange for an award of equity instruments over the period the employee or director is required to perform the services in exchange for the award (presumptively, the vesting period). The ASC also requires measurement of the cost of employee and director services received in exchange for an award based on the grant-date fair value of the award. The Company utilizes the Black-Sholes option pricing model and uses the simplified method to determine expected term because of lack of sufficient exercise history. Additionally, effective October 1, 2016, the Company adopted the Accounting Standards Update No. 2016-09 ("ASU 2016-09"), *Improvements to Employee Share-Based Payment Accounting*. Among other changes, ASU 2016-09 permits the election of an accounting policy for forfeitures of share-based payment awards, either to recognize forfeitures as they occur or estimate forfeitures over the vesting period of the award. The Company has elected to recognize forfeitures as they occur and the cumulative impact of this change did not have any effect on the Company's consolidated financial statements and related disclosures.

As of October 1, 2018, the Company has early adopted ASU 2018-7 Compensation-Stock Compensation which conforms the accounting for non-employees to the accounting treatment for employees. The new standard replaces using a fair value as of each reporting date with use of the calculated fair value as of the grant date. The implementation of the standard provides for the use of the fair market value as of the adoption date, rather than using the value as of the original grant date. Therefore, the values calculated and reported at September 30, 2018 become a proxy for the grant date value. The Company utilizes the Black-Sholes option pricing model and uses the simplified method to determine expected term because of lack of sufficient exercise history. There was no cumulative effect on the adoption date.

Shipping and Handling Costs

The Company has included freight-out and packaging costs as components of cost of sales, which amounted to \$25,019 and \$52,752, net of customer freight receipts for the nine months ended June 30, 2021 and 2020, respectively.

Convertible Notes with Fixed Rate Conversion Options

The Company may enter into convertible notes, some of which contain, predominantly, fixed rate conversion features, whereby the outstanding principal and accrued interest may be converted by the holder, into common shares at a fixed discount to the market price of the common stock at the time of conversion. This results in a fair value of the convertible note being equal to a fixed monetary amount. The Company records the convertible note liability at its fixed monetary amount by measuring and recording a premium, as applicable, on the Note date with a charge to interest expense in accordance with ASC 480 - "Distinguishing Liabilities from Equity".

Derivative Liabilities

The Company has certain financial instruments that are derivatives or contain embedded derivatives. The Company evaluates all its financial instruments to determine if those contracts or any potential embedded components of those contracts qualify as derivatives to be separately accounted for in accordance with ASC 810-10-05-4 and 815-40. This accounting treatment requires that the carrying amount of any derivatives be recorded at fair value at issuance and marked-to-market at each balance sheet date. In the event that the fair value is recorded as a liability, as is the case with the Company, the change in the fair value during the period is recorded as either other income or expense. Upon conversion, exercise or repayment, the respective derivative liability is marked to fair value at the conversion, repayment or exercise date and then the related fair value amount is reclassified to other income or expense as part of gain or loss on extinguishment.

Lease Accounting

In February 2016, the FASB issued a new accounting standard on leases. The new standard, among other changes, will require lessees to recognize a right-of-use asset and a lease liability on the balance sheet for all leases. The lease liability will be measured at the present value of the lease payments over the lease term. The right-of-use asset will be measured at the lease liability amount, adjusted for lease prepayments, lease incentives received and the lessee's initial direct costs (e.g. commissions). The new standard is effective for annual reporting periods beginning after December 15, 2018, including interim reporting periods within those annual reporting periods. The adoption will require a modified retrospective approach for leases that exist or are entered into after the beginning of the earliest period presented.

The Company's subsidiary has renewed the lease for the warehouse and office facility in Vancouver, Washington in May 2020 effective June 1, 2020, which extends through May 30, 2023, and is accounted for under ASC 842. The corporate office is an annual arrangement which provides for a single office in a shared office environment and is exempt from ASC 842 treatment. During the year ended September 30, 2020 the Company recognized a lease liability of \$156,554 and the related right-of-use asset for the same amount and will amortize both over the life of the lease.

Income Taxes

The Company's current provision for income taxes is based upon its estimated taxable income in each of the jurisdictions in which it operates, after considering the impact on taxable income of temporary differences resulting from different treatment of items for tax and financial reporting purposes. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and any operating loss or tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the year in which those temporary differences are expected to be recovered or settled. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income in those periods in which temporary differences become deductible. Should management determine that it is more likely than not that some portion of the deferred tax assets will not be realized, a valuation allowance against the deferred tax assets would be established in the period such determination was made. The Company follows the accounting for uncertainty in income taxes guidance, which clarifies the accounting and disclosures for uncertainty in income taxes recognized in the Company's financial statements and prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. It also provides guidance on derecognition and measurement of a tax position taken or expected to be taken in a tax return.

The Company currently has no federal or state tax examinations in progress. As of June 30, 2021, the Company's tax returns for the tax years 2020, 2019 and 2018 remain subject to audit, primarily by the Internal Revenue Service.

The Company did not have unrecognized tax benefits as of June 30, 2021 and September 30, 2020 and does not expect this to change significantly over the next 12 months. The Company will recognize interest and penalties accrued on any unrecognized tax benefits as a component of provision for income taxes.

Earnings /Loss Per Share

Basic loss per share is calculated by dividing the loss attributable to stockholders by the weighted-average number of shares outstanding for the period. Diluted loss per share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock or resulted in the issuance of common stock that shared in the earnings (loss) of the Company. Diluted loss per share is computed by dividing the loss available to stockholders by the weighted average number of shares outstanding for the period and dilutive potential shares outstanding unless such dilutive potential shares would result in anti-dilution. As of June 30, 2021, 17,223 options were outstanding of which 15,854 were exercisable, 17,614,776 warrants were outstanding and exercisable, and related party convertible debt and accrued interest totaling \$184,488 was convertible into 49,423,106 shares of common stock. Additionally, as of June 30, 2021, the outstanding principal balance, including accrued interest of the third-party convertible debt, totaled \$7,754,517 and was convertible into 1,361,827,432 shares of common stock. It should be noted that contractually the limitations on the third-party notes (and the related warrant) limit the number of shares converted to either 4.99% or 9.99% of the then outstanding shares. As of June 30, 2021, and 2020, potentially dilutive securities consisted of the following:

	June 30, 2021	June 30, 2020
Stock options	17,223	17,755
Warrants	17,614,776	47,910,830
Related party convertible debt and accrued interest	49,423,106	1,357,813,328
Third party convertible debt (including senior debt)	1,361,827,432	3,694,991,661

Segment Reporting

The Company uses “the management approach” in determining reportable operating segments. The management approach considers the internal organization and reporting used by the Company’s chief operating decision maker for making operating decisions and assessing performance as the source for determining the Company’s reportable segments. The Company’s chief operating decision maker is the chief executive officer of the Company, who reviews operating results to make decisions about allocating resources and assessing performance for the entire Company. As of June 30, 2021, the Company did not report any segment information since the vast majority of Company sales were from its subsidiary, Howco. Sales of drones were not material during the nine months ended June 30, 2021.

Recent Accounting Pronouncements

On August 5, 2020, the Financial Accounting Standards Board (FASB) issued accounting standards update (ASU) No. 2020-06, *Debt—Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging—Contracts in Entity’s Own Equity (Subtopic 815-40)*.

The amendments in the ASU remove certain separation models for convertible debt instruments and convertible preferred stock that require the separation of a convertible debt instrument into a debt component and an equity or derivative component. The ASU also amends the derivative scope exception guidance for contracts in an entity’s own equity. The amendments remove three settlement conditions that are required for equity contracts to qualify for the derivative scope exception.

In addition to the above, the ASU expands disclosure requirements for convertible instruments and simplifies areas of the guidance for diluted earnings-per-share calculations that are impacted by the amendments.

The ASU is effective for public business entities that meet the definition of a Securities and Exchange Commission (SEC) filer, excluding smaller reporting companies as defined by the SEC, for fiscal years beginning after December 15, 2021. Early adoption is permitted. The FASB noted that an entity should adopt the guidance as of the beginning of its annual fiscal year.

Entities may elect to adopt the amendments through either a modified retrospective method of transition or a fully retrospective method of transition. If an entity has convertible instruments that include a down round feature, early adoption of the ASU is permitted for fiscal years beginning after December 15, 2020.

The Company does not believe that any other recently issued but not yet effective accounting pronouncements, if adopted, would have a material effect on the accompanying consolidated financial statements.

NOTE 5 - LINE OF CREDIT - BANK

The Company has a revolving line of credit with a financial institution, which balance is due on demand and principal payments are due monthly at 1/60th of the outstanding principal balance. This revolving line of credit is in the amount of \$50,000, and is personally guaranteed by the Company’s Chief Executive Officer (“CEO”). The line bears interest at a fluctuating rate equal to the prime rate plus 4.25%, which at June 30, 2021 and September 30, 2020 was 7.5% and 7.5%, respectively. As of June 30, 2021, and September 30, 2020, respectively, the balance of the line of credit was \$36,648 and \$41,609, with \$13,352, available at June 30, 2021.

NOTE 6 - SETTLEMENT PAYABLE

On July 20, 2018, the Company entered into a settlement agreement with a collection agent for American Express relating to \$127,056 of past due charges. The agreement provides for initial payment of \$12,706, the monthly payments of \$6,500 and final payment on January 27, 2020 of \$3,850. The amount due at June 30, 2021 and September 30, 2020, was \$42,850. Under the terms of the stipulation and settlement agreement, this debt is in default.

NOTE 7 - NOTE PAYABLE – SELLER

In connection with the acquisition of Howco in September 2016, the Company issued a note payable in the amount of \$900,000 to the sellers of Howco. The note matured on September 9, 2017 and bears interest at 5.50% per annum. The note requires payment of unpaid principal and interest upon maturity. The note is secured by all assets of Howco Distribution Co. and subordinated to the Senior Secured Credit Facility discussed below. The note is currently in default and the default interest rate is 8% per annum. The Company made three repayments totaling \$9,000 during the three months ended June 30, 2021. At June 30, 2021 and September 30, 2020, principal and accrued interest on this note amounted to \$882,000, \$322,982 and \$900,000 and \$269,682, respectively.

Most of the related party convertible notes included a cross-default clause which in event of a default on another note holder's note causes a default on the related party notes. The CEO has amended those notes effective September 30, 2020 to remove the clauses.

The Company has a \$840,000 convertible note payable ("Note 1") to a related party entity controlled by the Company's CEO. Note 1 bears interest at an annual rate of 7% with an original maturity date of June 11, 2017, which has been extended to June 11, 2022, at which time all unpaid principal and interest is due. The holder of Note 1 has the option to convert the outstanding principal and accrued interest, in whole or in part, into shares of common stock at a conversion price equal to the volume weighted average price per share of common stock for the 30-day period prior to conversion.

On April 15, 2020, the Company amended the above Note 1 first issued to AIG and subsequently assigned to Pike Falls LLC (entities controlled by the Company's CEO) in amount of \$840,000, with a principal and accrued interest balance of \$688,444, and \$210,409, respectively at June 30, 2020. The amendment changes conversion terms, which now state the note principal and interest may be converted to common stock at 50% of the lowest closing bid price during the thirty days prior to conversion, increases the interest rate to 10%, and has a maturity date of January 7, 2022. The change in conversion terms has been treated as a debt extinguishment and the modified note is treated stock settled debt under ASC 480, and a put premium of \$688,444 was recognized with a charge to loss on debt extinguishment. The principal balance was \$377,194 and accrued interest was \$187,273 at September 30, 2020. As of June 30, 2021, Note 1 principal has been fully converted or paid in cash long with accrued interest of \$187,273, and the accrued interest balance was \$37,097 as of June 30, 2021. \$377,194 was recognized as a gain on extinguishment of debt during the nine months ended June 30, 2021.

The Company has a convertible note payable (for an unspecified amount) with the Company's CEO. This line of credit ("LoC") bears interest at an annual rate of 7% with a maturity date of December 31, 2017, at which time all unpaid principal and interest was due. On December 15, 2017 the due date was extended to July 2, 2018 and then in July, 2018, the due date was extended to June 30, 2019, and on December 23, 2018 the maturity date of the LoC was extended to September 23, 2024. The holder of the LoC has the option to convert the outstanding principal and accrued interest, in whole or in part, into shares of common stock at a conversion price equal to the volume weighted average price per share of common stock for the 30-day period prior to conversion. This LoC is considered a stock settled debt in accordance with ASC 480 and the fixed monetary amount is equal to the principal amount based on the conversion formula. During the year ended September 30, 2020 the Company was advanced \$64,940 and repaid \$132,803, on this LoC. As of September 30, 2020, the LoC has not been converted, the balance was \$99,142, and accrued interest was \$31,260. During the nine months ended June 30, 2021 the balance of the LoC principal was fully paid in cash and the balance of accrued interest was \$32,900 as of June 30, 2021.

On July 2, 2019, the Company issued a convertible note payable ("Note 2") to an affiliate of the Company's CEO for a \$15,000, cash loan. The funds were paid directly to a vendor to the Company. The note had an original maturity of June 9, 2020, however the note was amended effective September 30, 2020 and new maturity is May 31, 2022. The note bears interest at 10% and may be converted to the Company's common stock at 50% of the lowest closing bid in the 20 trading days prior to notification of conversion. The Company has accounted for the convertible promissory note as stock settled debt under ASC 480 and recorded debt premium \$15,000 with a charge to interest expense for the note. The note principal was fully repaid during the nine months ended June 30, 2021 and put premium of \$15,000, was recognized as gain on debt extinguishment. Accrued interest was \$2,155 at June 30, 2021 and \$1,843, at September 30, 2020.

The note bears interest at 10% and may be converted to the Company's common stock at 50% of the lowest closing bid in the 20 trading days prior to notification of conversion. The Company has accounted for the convertible promissory note as stock settled debt under ASC 480 and recorded debt premium of \$17,000 with a charge to interest expense for the notes. The note principal was fully repaid and put premium of \$17,000, was recognized as gain on debt extinguishment during the nine months ended June 30, 2021. Accrued interest was \$2,152 at June 30, 2021 and \$1,799, at September 30, 2020.

On December 30, 2018 the Company issued a promissory note to the CEO for a \$400,000, cash loan. The note bears interest at 12% per annum, matures on January 7, 2024 and required monthly payment of principal of \$5,000 with a balloon payment at maturity. On April 14, 2020, the Company amended the above note first issued to Michael Bannon (the Company's CEO) on December 30, 2018, in amount of \$400,000, with a principal and interest balance of \$367,500, and \$76,619, respectively at September 30, 2020. The amendment adds conversion terms, which state the note principal and interest may be converted to common stock at 50% of the lowest closing bid price during thirty days prior to conversion, and reduces the interest rate to 10%, and extends the maturity date to January 7, 2024. The change in conversion terms has been treated as a debt extinguishment and the new note is considered a stock settled debt under ASC 480, and put premium of \$367,500 has been recognized with a charge to interest expense. The note principal was fully repaid in cash during the nine months ended June 30, 2021 and a gain on debt extinguishment was recognized for the premium upon receipt of cash repayments. The accrued interest balance was \$83,133 at June 30, 2021 and \$76,619 at September 30, 2020.

On January 19, 2019 the Company issued a, promissory note to the CEO for a \$200,000, cash loan. The note bears interest at 12% per annum, matures on September 23, 2021 and requires monthly payments of \$2,500 principal. On April 14, 2020, the Company amended the note first issued to Michael Bannon (the Company's CEO) on January 19, 2019, in amount of \$200,000, with a principal and interest balance of \$195,000, and \$17,947. The amendment adds conversion terms, which state the note principal and interest may be converted to common stock at 50% of the lowest closing bid price during thirty days prior to conversion, and reduces the note interest rate to 10%, and extends the maturity date to April 15, 2026. The change in conversion terms has been treated as a debt extinguishment and the new note is considered a stock settled debt under ASC 480, and put premium of \$195,000 has been recognized with a charge to loss on debt extinguishment. During 2020, \$14,250 was repaid and \$180,750 was converted to common stock. The note principal balance of \$195,000 has been fully liquidated at June 30, 2021 and accrued interest was \$20,855 as of June 30, 2021.

On July 1, 2019, Howco entered into a purchase order financing agreement with an entity controlled by the Company's CEO ("Pike Falls") for cash advances to Howco. The advances are to be for 100% of the face value of the purchase orders to be repaid with accounts receivable related to the sales of the products underlying the purchase orders. Pike Falls receives 4% of the purchase price for the first 45 days and .00086% per day thereafter on the unpaid balance.

On April 15, 2020, the Company issued a convertible note payable to Michael Bannon (the Company's CEO) in the principal amount of \$69,391, in replacement for the amounts owed to an entity controlled by Mr. Bannon (above) The new note interest rate is 10%, and it matures on January 31, 2022. The new note principal and interest may be converted into the Company's common stock at 50% of the lowest closing bid price in the thirty days preceding the conversion notice. This issuance is treated as a debt extinguishment of the old note and the new note conversion terms have been treated as stock settled debt under ASC 480, and put premium of \$69,391 has been recognized with a charge to interest expense. The principal and accrued interest were \$69,391 and \$5,332 respectively as of September 30, 2020. At March 31, 2021 the principal was fully paid in cash and \$69,391 was recognized as gain on extinguishment of debt. Accrued interest was \$6,206 at June 30, 2021.

Other Notes Payable

On December 22, 2020 a non-convertible promissory note was issued to the CEO by Howco for \$50,000 having weekly payments of \$2,580 for twenty-five weeks, which include a total of \$14,500 of interest. During the nine months ended June 30, 2021, principal and interest due were fully paid at June 30, 2021.

NOTE 9 - CONVERTIBLE NOTES PAYABLE AND ADVISORY FEE LIABILITIES

The senior secured credit facility note balance and convertible debt balances consisted of the following at June 30, 2021 and September 30, 2020:

	June 30, 2021	September 30, 2020
Principal	\$ 6,134,157	\$ 6,473,702
Premiums	1,471,000	1,846,471
Unamortized discounts	(13,106)	(9,223)
	<u>\$ 7,592,051</u>	<u>\$ 8,310,950</u>

For the nine months ended June 30, 2021 and 2020, amortization of debt discount on the above convertible notes amounted to \$21,423 and \$3,803, respectively.

Senior Secured Credit Facility Note - Default

On September 13, 2016, the Company entered into a senior secured credit facility note with an investment fund for the acquisition of Howco. The Company can borrow up to \$6,500,000, subject to lender approval, with an initial convertible promissory note at closing of \$3,500,000 (the "Note"). The Note bears interest at a rate of 18% per annum, required monthly payments of \$52,500, which is interest only, starting on October 13, 2016 through February 13, 2017, and monthly payments, including interest and principal, of \$298,341 starting on March 13, 2017 through maturity on March 13, 2018. In the event of default, the Note balance will bear interest at 25% per annum. In connection with this Agreement, the Company was obligated to pay additional advisory fees of \$850,000 payable in the form of cash or common stock in accordance with the terms of the Agreement. The Company was also required to reserve 7,000 shares of common stock related to this transaction. The reserved shares will be released upon the satisfaction of the loan.

As of June 30, 2021, and September 30, 2020, the Company had issued 539, shares of common stock in satisfaction of the \$850,000 advisory fee in accordance with the terms of the agreement, such shares being issued in September 2016. The proceeds from the sale of the 539, shares were to be applied to the \$850,000 advisory fee due. Based upon the value of the shares, at the time the lender sells the shares, the Company may be required to redeem unsold shares for the difference between the \$850,000 and the lender's sales proceeds. Accordingly, the \$850,000 was reflected as a current liability through December 31, 2017. In January 2018, in connection with a settlement agreement (see below), the accrued advisory fee was reclassified to the principal balance of the replacement Convertible Note. Through the date of the settlement agreement and through September 30, 2020 and June 30, 2021, the lender had not reported any proceeds from the sale of these shares (see below). Prior to the settlement agreement in January 2018, notwithstanding anything contained in the Agreement to the contrary, in the event the Lender has not realized net proceeds from the sale of Advisory Fee Shares equal to at least the Advisory Fee by the earlier to occur of: (A) September 13, 2017; (B) the occurrence of an Event of Default; or (C) the Maturity Date, then at any time thereafter, the Lender shall have the right, upon written notice to the Borrower, to require that the Borrower redeem all Advisory Fee Shares then in Lender's possession for cash equal to the Advisory Fee, less any cash proceeds received by the Lender from any previous sales of Advisory Fee Shares, if any within five (5) Business Days from the date the Lender delivers such redemption notice to the Borrower.

The Note is only convertible upon default or mutual agreement by both parties at a conversion rate of 85% of the lowest of the daily volume weighted average price of the Company's common stock during the 5 business days immediately prior to the conversion date. At any time and from time to time while this Note is outstanding, but only upon: (i) the occurrence of an Event of Default under any of the Loan Documents; or (ii) mutual agreement between the Company and the Holder, this Note may be, at the sole option of the Holder, convertible into shares of the Company's common stock, in accordance with the terms and conditions of the Note Upon liquidation by the Holder of Conversion Shares issued pursuant to a conversion notice, provided that the Holder realizes a net amount from such liquidation equal to less than the conversion amount specified in the relevant conversion notice, the Company shall issue to the Holder additional shares of the Company's common stock equal to: (i) the Conversion Amount specified in the relevant conversion notice; *minus* (ii) the realized amount, as evidenced by a reconciliation statement from the Holder (a "Sale Reconciliation") showing the realized amount from the sale of the Conversion Shares; *divided by* (iii) the average volume weighted average price of the Company's common stock during the five business days immediately prior to the date upon which the Holder delivers notice (the "Make-Whole Notice") to the Company that such additional shares are requested by the Holder.

(Unaudited)

Once a default occurs, the Note and the \$850,000 advisory fee payable will be accounted for as stock settled debt at its fixed monetary value. On March 13, 2017 the Company defaulted on the monthly principal and interest payment of \$298,341. Due to this default, as of June 30, 2017, the Company has accounted for the

embedded conversion option as stock settled debt and recorded a debt premium of \$617,647 with a charge to interest expense and the interest rate increased to 25% (default rate).

On March 28, 2017, the Company entered into an additional agreement with the above senior secured credit facility lender to receive a range of advisory services for a total of \$1,200,000 with no definitive terms or length of service which was expensed in fiscal 2017 and had been recorded as an accrued liability – advisory fees through December 31, 2017. In connection with the settlement agreement discussed below, in January 2018, the advisory services fees payable were reclassified to the principal balance of the replacement Convertible Note.

On January 3, 2018, the Company entered into a settlement agreement (the “Settlement Agreement”) and replacement note agreements with the investment fund related to a senior secured credit facility note dated September 13, 2016. On the effective date of the Settlement Agreement, all amounts owed to the investment fund aggregated \$5,788,642 and consisted of a convertible promissory note of \$3,500,000, accrued interest payable of \$238,642, and accrued advisory fees payable of \$2,050,000. On the effective date of the Settlement Agreement, the amount due of \$5,788,642 was split and apportioned into two separate replacement notes (“Replacement Note A” and Note B”). Replacement Note A had a principal amount of \$1,000,000 and Replacement Note B had a principal balance of \$4,788,642, both of which remained secured by the original security, pledge and guarantee agreements; and other applicable loan documents, and bear interest at 18% per annum. The default was not waived by this settlement agreement. The Company originally recorded a premium on stock settled debt of \$617,647 on the \$3,500,000, and subsequent to the settlement agreement recorded an additional premium on stock settled debt of \$403,878 on the additional \$2,288,642 for accrued interest and advisory fees payable that were capitalized as note principal. The interest rate was amended to 12% effective June 12, 2018.

The Credit Agreement was amended such that the maturity date was extended to January 13, 2019 (the “Extended Maturity Date”) for replacement Note B, while the Note A maturity date remained at March 13, 2018 but was due as of March 2017 due to the principal and interest payment default discussed above. Notwithstanding anything contained in this Agreement to the contrary, all obligations owing by the Company and all other Credit Parties under the Credit Agreement, First Replacement Note B, and all other Loan Documents shall be paid in full by the Extended Maturity Date as follows: \$52,500 per month from January 13, 2018 to December 13, 2018 and the remaining principal and accrued interest on January 13, 2019. Interest payments made since the amendment have totaled \$323,440 and are therefore not in accord with that amendment. However, TCA has received payments under the 3(a) (10) settlement (below) totaling \$308,100 during the year ended September 30, 2018, and another \$270,320, during the year ended September 30, 2019. The principal balance was \$4,788,642 at September 30, 2018.

On October 30, 2018, TCA the Company’s senior lender amended its credit facility which had been restructured in January 2018 when fees for advisory and other matters along with accrued but unpaid interest were capitalized and separated into two notes, Note A having \$1,000,000 principal and Note B having \$4,788,642 both having the same maturity terms, interest rates and conversion rights. Under the current amendment total amounts outstanding under the notes along with accrued interest of \$537,643 has been capitalized with the principal amount due of \$6,018,192, \$5,326,285 for Note B and \$691,907 for Note A. The restated note has the same conversion price discount and therefore continues to be stock settled debt under ASC 480, an additional \$94,878 was charged to interest with a credit to debt premium. The restated note accrues interest on the principal balance at 12% per annum, includes amortization to the new maturity date of December 15, 2020. The amortization payments credited toward the principal amount and accrued interest vary and include payments made under the 3(a)(10) settlement agreement with a third party related to Note A. Economically the total principal and accrued interest outstanding remain unchanged as reported in the consolidated balance sheet. All other terms including conversion rights and a make-whole provision in the case of a conversion shortfall remain the same as stated in the footnotes above.

On September 6, 2019, the Company received a default notice on its payment obligations under the senior secured credit facility agreement from TCA. The Company has proposed a number of solutions including refinancing the debt with other parties. The default was declared due to non-payment of monthly scheduled amortization (principal and interest). TCA holds security interests in all assets of the Company including its subsidiary Howco. The Company is in negotiation with the receiver appointed by the court related to the senior secured creditor’s claim and has proposed a preliminary settlement.

At June 30, 2021 and September 30, 2020, the principal of the Note B portion was \$5,326,285 and accrued interest was \$1,578,614 and \$1,099,250 respectively and the Note A principal subject to the 3(a) (10) court order was \$421,587. During the nine months ended June 30, 2021, the Company has not paid interest or principal and Livingston Asset Management (under the 3(a) (10) settlement) has not made any payments to TCA.

On January 30, 2018 pursuant to the Liability Purchase Term Sheet, the TCA Replacement Note A in the principal amount of \$1,000,000 was acquired by Livingston Asset Management LLC (“Livingston”) from the original lender. Principal of Replacement Note A is due to Livingston with all then accrued but unpaid interest due to the original lender. In accordance with the terms of the Settlement Agreement, the Court was advised of Company’s intention to rely upon the exception to registration set forth in Section 3(a) (10) of the Securities Act to support the issuance of its common shares and the Court held a fairness hearing regarding the issuance on March 12, 2018. Following entry of an Order by the Court which occurred on March 12, 2018, in settlement of the claims, the Company shall issue and deliver to Livingston shares of its common stock (the “Settlement Shares”) in one or more tranches as necessary, and subject to adjustment and ownership limitations as set forth in the Settlement Agreement, sufficient to generate proceeds such that the aggregate Remittance Amount equals the Claim Amount. The Company will issue free trading shares of its common stock under section 3(a) (10) of the Securities Act to Livingston in the amount of such judgment in a series of tranches so that Livingston will not own more than 9.99% of our outstanding shares per tranche. The parties reasonably estimate that the fair market value of the Settlement Shares to be received by Livingston is equal to approximately \$1,666,667 which is based on a discount of 40%.

In the nine months ended June 30, 2021, there were no 3(a) (10) issuances. As of June 30, 2021, there have been seventeen issuances under section 3(a) (10) of the Securities Act totaling 1,374,885 shares; 1,273,261, in 2019, and 101,624, in 2018, which have been recorded at par value with an equal charge to additional paid-in capital. On November 17, 2019, 194,520 of the shares issued under the 3(a) (10) were cancelled at the request of Livingston. The value originally recorded as a liability remains in the convertible note balance, until these shares have been sold and reported to the Company by the lender as part of the Make-Whole provision at which time the proceeds value of such shares are reclassified to additional paid-in capital. During the year ended September 30, 2019, proceeds of \$270,320 were remitted to TCA by Livingston and applied to reduce the liability with corresponding credits to additional paid in capital. \$180,618 of debt premium was credited to additional paid in capital in conjunction with the payments to TCA. At September 30, 2020 and June 30, 2021 the balance, of \$421,587 along with related debt premium of \$281,054 are included in convertible notes payable on the balance sheet.

On March 7, 2018 the Company entered into a placement agent and advisory agreement with Scottsdale Capital Advisors in connection with the Livingston liability purchase term sheet executed on November 15, 2017. The placement agent services fee amounted to \$15,000 payable to Scottsdale Capital Advisors in the form of a convertible note. The note matures six months from the date of issuance and shall accrue interest at the rate of 10% per annum. The \$15,000 note is convertible into shares of the Company’s common stock at a discount of 30% of the low closing bid price for the twenty trading days prior to the conversion and is not subject to any registration rights. The Company has accounted for the convertible promissory note as stock settled debt under ASC 480 and recorded a debt premium of \$6,429 with a charge to interest expense. The note has not been converted and the principal balance is \$15,000, at June 30, 2021 and September 30, 2020 with \$5,768, and \$4,293, of accrued interest, respectively. As the note has matured it is technically in default. Under the terms of the note no default interest or penalties accrue.

Other Convertible Debt

On June 1, 2018 the Company entered into a consulting and services arrangement with Livingston Asset Management which has no stipulated term. The arrangement provides for financial management services including accounting and related periodic reporting among other advisory services. Under the agreement the Company will issue to Livingston Asset Management Convertible Fee Notes having principal of \$12,500, interest of 10% per annum, maturity of six or seven months. The notes are convertible into common shares at a discount of 50% to the lowest bid price in the 30 trading days immediately preceding the notice of conversion. The notes were charged to professional fees for each corresponding service month. The Company has accounted for the convertible promissory note as stock settled debt under ASC 480 and recorded a debt premium of \$12,500 with a charge to interest expense for each note. As of June 30, 2021, the following notes had been issued, assigned and converted as indicated:

December 1, 2018, \$12,500 principal, maturing May 31, 2019 – partially converted, principal balance \$10,375 at September 30, 2019 – assigned to Alpha Capital Anstalt and fully converted;

January 1, 2019, \$12,500 principal, maturing June 30, 2019 – assigned to Alpha Capital Anstalt and fully converted;

February 1, 2019, \$12,500 principal, maturing July 31, 2019– assigned to Alpha Capital Anstalt and fully converted;

March 1, 2019, \$12,500 principal, maturing August 31, 2019– assigned to Alpha Capital Anstalt and fully converted;

April 1, 2019, \$12,500 principal, maturing September 30, 2019– assigned to Alpha Capital Anstalt and fully converted;

May 1, 2019, \$12,500 principal, maturing October 31, 2019– assigned to Alpha Capital Anstalt and fully converted; and

June 1, 2019, \$12,500 principal, maturing November 30, 2019– assigned to Alpha Capital Anstalt and fully converted.

The \$85,375 of principal from the Livingston Asset Management LLC notes issued December 1, 2018 through June 1, 2019, along with \$8,475 of accrued interest were sold and assigned to Alpha Capital Anstalt, on February 20, 2020. The assigned notes became convertible as of the date of the assignment by virtue of an agreement between the Company and the new note holder. The terms of the notes provide for conversion of principal and accrued interest at a 50% discount to the lowest closing bid price over the 20 days prior to conversion. The notes have been accounted for as stock settled debt under ASC 480, and put premium of \$93,850 has been recognized with a charge to interest expense. During the year ended September 30, 2020, \$2,200 of the principal was converted into common stock. The total accrued unpaid interest (also not converted) is \$5,277 at September 30, 2020. The assigned notes are in default and there are cross-default terms in the original notes or the assignment documentation. Following conversions during the nine months ended June 30, 2021 the principal balance was \$0 at June 30, 2021 and \$91,300 as of September 30, 2020. Accrued interest was \$0 and \$5,277 at June 30, 2021 and September 30, 2020, respectively. Put premiums of \$91,300 were reclassified to additional paid in capital during the nine months ended June 30, 2021.

Under the terms of the June 1, 2018 consulting and services agreement with Livingston Asset Management, LLC, as amended on July 1, 2019, Livingston is to receive \$20,000, per month including \$3,000 cash and \$17,000 in promissory notes. The notes bear interest of 10% per annum and mature in six month. The promissory notes issued after February 28, 2020 are convertible into shares of common stock at a discount of 50% of the lowest closing bid price during the 30 trading days prior to conversion. The notes having a conversion feature are treated as stock settled debt under ASC 480 and a debt premium of \$17,000 is recognized as interest expense on note issuance date. During the nine months ended June 30, 2021, Livingston agreed to forgive seven months of service including the cash payments due which were recorded as accounts payable. A gain on debt extinguishment was recognized of \$296,938 related to the principal, premiums and accrued interest during the nine months ended June 30, 2021. The specific notes forgiven are indicated below.

Convertible notes were issued to Livingston as follows:

January 1, 2020 - \$17,000 non-convertible note amended to original conversion terms, fully converted;

February 1, 2020 - \$17,000 note and accrued interest forgiven;

March 1, 2020 - \$17,000 note and accrued interest forgiven;

April 1, 2020 - \$17,000 note and accrued interest forgiven;

May 1, 2020, \$17,000 note and accrued interest forgiven;

June 1, 2020 - \$17,000 note and accrued interest forgiven;

July 1, 2020 - \$17,000 note and accrued interest forgiven; and

August 1, 2020 - \$17,000, note and accrued interest forgiven.

Livingston has given the Company forbearance on fees beginning September 1, 2020 through June 1, 2021. Effective July 1, 2021 the agreement was amended changing the advisory fees to \$15,000 due on the first day of each month. Fees are to be paid in the form of a convertible note having a nine month maturity and conversion discount of 50% of the lowest closing bid price during the 30 trading days prior to conversion.

On August 29, 2018 the Company entered into an agreement with a legal firm to provide securities related and other legal services which has no stipulated term. Under the agreement the Company will issue convertible notes with varying principal amounts for services. The first note was issued on August 29, 2018, for \$6,000, interest of 12%, and a maturity date of February 28, 2019. The conversion feature allows for conversion into common shares at the lesser of: a) 70% of the share price on the date of the note; or b) 50% of the lowest bid price during the 30 trading days preceding the date of the notice of conversion. In connection with the issuance of this Note, the Company determined that the terms of the Note contain a conversion formula that caused variations in the conversion price resulting in the treatment of the conversion option as a bifurcated derivative to be accounted for at fair value. Accordingly, under the provisions of FASB ASC Topic No. 815-40, "Derivatives and Hedging – Contracts in an Entity's Own Stock", the embedded conversion option contained in the convertible instruments were accounted for as derivative liabilities at the date of issuance and shall be adjusted to fair value through earnings at each reporting date. The fair values of the embedded conversion option derivatives were determined using the Binomial valuation model. \$10,435 was recognized as derivative liability with \$6,000 charged to debt discount and \$4,035 charged to derivative expense on issuance. The debt discount of \$6,000 will be amortized to interest expense to the maturity date of the note. At March 31, 2019 the derivative fair value was determined to have decreased to \$8,881. As the note reached its maturity date no further fair value adjustments will be recorded.

For the year ended September 30, 2019, the \$5,000, balance of the debt discount was charged to interest expense and debt discount balances was \$0. During the nine months ended June 30, 2021 the note principal was fully repaid in cash and the derivative liability was recognized as gain on extinguishment of debt. The following notes have been issued to the law firm, each having six month term to maturity and 12% annual interest but a change in the conversion terms such that a fixed discount of 50% of the lowest bid price in the 30 trading days immediately preceding the notice of conversion. The notes have cross default provisions. The Company has accounted for the convertible promissory note as stock settled debt under ASC 480 and recorded debt premiums equal to the face value of the notes with a charge to interest expense. The note principal amount was charged to professional fees during the month the note was issued.

It is the Company's intention to pay the monthly fee in cash, therefore it expected that no new notes will be issued in conjunction with the monthly attorney service fees.

The unconverted note's principal above issued for legal services, have been converted as of June 30, 2021. Accrued interest due of \$1,738 as of June 30, 2021, which is owed to the attorney.

On November 13, 2018, the Company issued a convertible promissory note for \$90,000 to a vendor in settlement of approximately \$161,700 of past due amounts due for services. The note bears interest at 5%, matures on June 30, 2019 and is convertible into the Company's common stock at 50% of the lowest closing bid price during the 20 trading days immediately preceding the notice of conversion. The note matured on June 30, 2019, there is no default penalty associated with the note, nor are there any cross-default provisions in the note. The Company has accounted for the convertible promissory note as stock settled debt under ASC 480 and recorded debt premium \$90,000 with a charge to interest expense for the notes. The unconverted principal, premium and accrued interest were \$90,000, \$90,000, and \$14,993 as of September 30, 2020. At June 30, 2021 the principal, premium and accrued interest were \$90,000, \$90,000, and \$23,003.

On November 9, 2017, the Company received a first tranche payment of \$75,500 under the terms of a Securities Purchase Agreement dated October 25, 2017, with Crown Bridge Partners, LLC ("Crown Bridge") under which the Company issued to Crown Bridge a convertible note in the principal amount of \$105,000 and a five-year warrant to purchase 100, shares of the Company's common stock at an exercise price of \$350, as a commitment fee which is equal to the product of one-third of the face value of each tranche divided by \$350. Under the terms of the note Crown Bridge was to receive "right of first refusal" for any subsequent loans or notes to fund the Company. The Company violated this covenant when funding was received from other sources without offering Crown Bridge the opportunity to participate. On December 20, 2017 the Company cured this covenant violation by issuing 200 additional warrants which have the same exercise price and terms of the original warrants. The warrants have full ratchet price protection and cashless exercise rights.

The convertible note (the "Note") issued to Crown Bridge in the principal amount of \$105,000, has an original issue discount of \$10,500 and issue costs of \$19,000 both of which are recorded as debt discount along with the warrant relative fair value of \$12,507 for the original 100, warrants and \$31,529 for the penalty warrants to be amortized over the twelve month term of this tranche, bears interest of 10% (12% default rate) per annum, and has a maturity date of 12 months from the date of each tranche of payments under the Note with future tranches being at the discretion of Crown Bridge. The conversion rate for any conversion of unpaid principal and interest under the Notes is at a 35% discount to the lowest market price of the shares of the Company's common stock within a 20 day trading period prior to the date of conversion to which an additional 10% discount will be added if the conversion price of the Company's common stock is less than \$50, per share and no shares of the Company's common stock can be issued to the extent Crown Bridge would own more than 4.99% of the outstanding shares of the Company's common

stock and the conversion shares contain piggy-back registration rights. The Note is subject to customary default provisions including an event of default if the bid price of the Company's common stock is less than its par value of \$.0001 per share. The Company is entitled to prepay the Note between 30 days after its issuance until 180 days from its issuance at amounts that increase from 112% of the prepayment amount to 137% of the prepayment amount depending on the length of time when prepayments are made. The Company has accounted for the convertible promissory note as stock settled debt under ASC 480 and recorded a debt premium of \$56,538 with a charge to interest expense. As of September 30, 2018 the note holder fully converted principal and accrued interest into common shares. The debt premium on stock settled debt was fully recognized as additional paid in capital.

On March 1, 2019, the Company received a second tranche advance under the Crown Bridge Partners, LLC, master note dated October 25, 2017, for principal amount of \$35,000, including covered fees and original issue discount totaling \$5,000. Under the conversion terms of the above note, the holder is entitled to a 35% discount plus an additional 10% discount based on the conversion rights of certain other note holders. Therefore a discount of 45% is assumed for any conversions of this note tranche. The Company has accounted for the convertible promissory note as stock settled debt under ASC 480 and recorded a debt premium of \$28,636 with a charge to interest expense. The original issue discount and fees charged were treated as debt discount and will be amortized to financing expenses over the term of the note. Following conversions during the year ended September 30, 2020 the principal balance and debt premium balances were reduced and the unamortized debt discount was \$0, at September 30, 2020. The principal was increased by charges of \$17,500 for technical default effective during the year ended September 30, 2020 and an additional put premium was calculated to be \$26,250. The cross-default provisions of the note include defaults on any notes issued to third parties including any issued subsequent to the issuance of this note. The default charge and the put premium were charged to interest expense of June 30, 2020. The conversion discount increased to 60% as a result of the default. The principal and accrued interest were \$2,766 and \$6,394, respectively at June 30, 2021 and \$2,766 and \$6,187 at September 30, 2020.

On July 12, 2019, the Company issued a convertible promissory note to Trillium Partners LP for cash in the amount of \$10,000. The note bears interest at 10%, matures on January 11, 2020, and was convertible into the Company's common stock at 50% of the lowest closing bid price on the 20 trading days immediately preceding the notice of conversion. The Company accounted for the convertible promissory note as stock settled debt under ASC 480 and recorded debt premium \$10,000 with a charge to interest expense for the notes.

On November 1, 2019, Trillium Partners LP amended the terms of the notes issued July 12, 2019, such that the note is no longer convertible into common stock. The principal balance of \$10,000 was reclassified to notes and loans payable and the related put premium totaling \$10,000 was recognized as a gain on debt extinguishment on the date of the amendment.

The Company recognized a principal amount of \$112,631, \$2,075 charged to expense and debt discounts of \$29,631. The Company's CEO is a personal guarantor of the financing facility. As of June 30, 2021 the principal balance is \$84,473, with unamortized debt discount of \$18,952 having a net balance of \$65,521.

In March 2021, the Company through Howco, entered into a bank loan which is guaranteed by the Small Business Administration under the Paycheck Protection Plan for \$154,790. The loan has a maturity of sixty months and an interest rate of .98%. The loan will be forgiven provided the terms of forgiveness upon submission of a valid application for loan forgiveness when approved by the agent bank. The terms call for Howco to use the funds for specified purposes. Howco has put in place controls designed to ensure compliance with the terms of forgiveness. The amount forgiven will be recognized as gain on debt extinguishment when approved. Any amount that is not forgiven is to be paid over the eighteen months following the twelve month deferral period.

During the nine months ended June 30, 2021, the Company issued seven notes payable totaling \$17,500. The notes were issued for monthly fees (\$2,500) for a service vendor and are issued the first day of the month and each has one year maturity and does not bear interest. The service arrangement was terminated in April 2021.

Stock Options

The Company recognizes compensation cost for unvested stock-based incentive awards on a straight-line basis over the requisite service period.

There were no options granted under the 2016 Stock Incentive Plan for the nine months ended June 30, 2021 and 2020.

For the nine months ended June 30, 2021 and 2020 the Company recorded \$108,651 and \$63,531 of compensation and consulting expense related to stock options, respectively. Total unrecognized compensation and consulting expense related to unvested stock options at June 30, 2021 amounted to \$112,237. The weighted average period over which share-based compensation expense related to these options will be recognized is approximately 1 year.

For the nine months ended June 30, 2021, a summary of the Company's stock options activity is as follows:

	Number of Options	Weighted- Average Exercise Price	Weighted- Average Remaining Contractual Term (Years)	Weighted- Average Grant-Date Fair Value	Aggregate Intrinsic Value
Outstanding at September 30, 2020	17,755	220.00	5.29	-	-

Warrants

On September 9, 2016, 500 5-year warrants exercisable at \$10, per share were issued as part of the consideration for the Howco acquisition. These warrants were valued at aggregate of \$180,000, and have no intrinsic value.

On November 9, 2017, the Company received a first tranche payment of \$75,500 under the terms of a Securities Purchase Agreement dated October 25, 2017, with Crown Bridge under which the Company issued to Crown Bridge a convertible note in the principal amount of \$105,000 and a five-year warrant to purchase 100 shares of the Company's common stock at an exercise price of \$350 as a commitment fee which is equal to the product of one-third of the face value of each tranche divided by \$0.35. On December 20, 2017 an additional 200 warrants were issued as a penalty and in order to entice Crown Bridge to waive its right of first refusal to provide additional financing under the terms of their convertible note. A debt discount of \$44,036 was recorded for the relative fair market value of the total 300 warrants and amortized to interest expense as of September 30, 2018. The warrants have full ratchet price protection and cashless exercise rights (See Note 9). The warrant includes an anti-dilution clause that was triggered on June 4, 2018. On June 4, 2018 an unrelated convertible note holder became entitled to convert their note into common shares at a 60% discount to the stock's market price. The anti-dilution provision trigger in the warrant agreement entitled Crown Bridge to exercise its warrants under a formula that increased the number of common shares to 31,250 at a price of \$3.60 per share. Due to the fact that the number of shares and exercise price can change due to market changes in the price of the common stock the Company has concluded to treat the warrants as derivatives and to revalue that derivative at each reporting date. Therefore, a derivative liability of \$261,484 with a charge to additional paid in capital was recorded on June 4, 2018. As of June 30, 2021, the warrant was revalued and the warrant holder is entitled to exercise its warrants for 17,614,276 common shares and the related derivative liability is \$125,057.

For the nine months ended June 30, 2021, a summary of the Company's warrant activity is as follows:

	Number of Warrants	Weighted- Average Exercise Price	Weighted- Average Remaining Contractual Term (Years)	Weighted- Average Grant-Date Fair Value	Aggregate Intrinsic Value
Outstanding and exercisable at September 30, 2020	25,484,484	\$.0019	2.11	\$ -	\$ 71,866
Anti-dilution adjustment	7,869,708				
Outstanding and exercisable at June 30, 2021	17,614,776	\$.007	1.36	\$ -	\$ 125,058

NOTE 12 - DEFINED CONTRIBUTION PLAN

In August 2016, Bantec established a qualified 401(k) plan with a discretionary employer matching provision. All employees who are at least twenty-one years of age and no minimum service requirement are eligible to participate in the plan. The plan allows participants to defer up to 90% of their annual compensation, up to statutory limits. Employer contributions charged to operations for the nine months ended June 30, 2021 and 2020, was \$0 and \$0, respectively.

The Company's subsidiary, Howco, is the sponsor of a qualified 401(k) plan with a safe harbor provision. All employees are eligible to enter the plan within one year of the commencement of employment. Employer contributions charged to expense for the nine months ended June 30, 2021 and 2020 was \$6,540 and \$26,631, respectively.

NOTE 13 - RELATED PARTY TRANSACTIONS

On October 1, 2016, the Company entered into employment agreements with two of its officers. The employment agreement with the Company's President and CEO provides for annual base compensation of \$370,000 for a period of three years, which can, at the Company's election, be paid in cash or Common Stock or deferred if insufficient cash is available, and provides for other benefits, including a discretionary bonus and equity provision for the equivalent of 12 months' base salary, and an additional one-time severance payment of \$2,500,000 upon termination under certain circumstances, as defined in the agreement. On September 16, 2019, Mr. Bannon's employment agreement was modified to provide an annual salary of \$624,000. The Company recognized expenses of \$468,000 for the nine months ended June 30, 2021 and 2020 for the CEO's base compensation.

On March 28, 2017, Bantec entered into an at-will employment agreement with Matthew Wiles as General Manager of Howco. Under the terms of the employment agreement, Mr. Wiles' compensation is \$140,000 per annum and he also will be eligible for a bonus of 10% of Howco's gross profits over \$1.25 million to be paid in cash after the annual financial statements have been completed and, if applicable, audited for filing with the SEC. Mr. Wiles will also receive options to acquire 250 shares of Bantec's common stock, vesting over five years in equal amounts on the anniversary date of his Employment Agreement. On September 16, 2019, Mr. Wiles' employment agreement was modified to provide salary of \$275,000, and an annual bonus of 2% of net income. At the Company's discretion, salary and bonus may be paid in cash or stock and payment may be deferred. The difference between the amended agreement and salary paid by Howco is recorded in the accounts of the parent company. \$90,866 and \$101,250 were recognized as expense in the parent company's accounts for nine months ended June 30, 2021 and 2020, respectively. \$174,044 and \$140,178 were recorded as accrued salaries expense as of June 30, 2021 and September 30, 2020 respectively.

The Company has certain convertible notes and other promissory notes payable to related parties (see Note 8).

NOTE 14 - COMMITMENTS AND CONTINGENCIES

Contingencies

Legal Matters

On February 6, 2018 the Company sent a letter to the previous owners of Howco Distributing Co. ("Howco") alleging that they made certain financial misrepresentations under the terms of the Stock Purchase Agreement by which the Company acquired control of Howco during 2016. The Company claimed that the previous owners took excessive amounts of cash from the business prior to the close of the merger. On March 13, 2018 the Company filed a lawsuit against the previous owners by issuing a summons. On April 12, 2018, the Company received the Defendants' answer. On July 22, 2019, the Company was granted a dismissal without prejudice of the lawsuit filed against the previous owners of Howco. The Company is currently in talks with the previous owners of Howco to settle an outstanding note. There is an oral agreement to pay the previous owners \$3,000 a month until a written settlement can be reached. During the nine months ended June 30, 2021 the Company has repaid \$18,000.

In connection with the merger in fiscal 2016, with Texas Wyoming Drilling, Inc., a vendor has a claim for unpaid bills of approximately \$75,000 against the Company. The Company and its legal counsel believe the Company is not liable for the claim pursuant to its indemnification clause in the merger agreement.

On February 11, 2019, the Supreme Court of the State of New York issued a summons to the former CFO of the Company, to appear before the court to answer the Company's complaint seeking payment under a personal guarantee of the defendant to provide half of any compensation paid to the former Chief Strategy Officer. The Company is seeking \$300,000 from the defendant relating to the November 27, 2018 settlement agreement with the former Chief Strategy Officer for \$600,000. The former CFO has responded to the suit and has filed a motion to dismiss the Company's suit during August of 2019. The judge presiding ruled to dismiss the defendant's motion. The former CFO's council filed for a summary judgement, and the Company has filed a rebuttal with the court. As of June 30, 2021 the courts are still backed up due to COVID 19 matters, therefore it may take up to a year for a decision. Currently, the Company is in discussion with the former CFO's legal counsel to resolve the matter.

On April 10, 2019, a former service provider filed a complaint with three charges with the Superior Court Judicial District of New Haven, CT seeking payment for professional services. The Company has previously recognized expenses of \$218,637, which remain unpaid in accounts payable. The Company has retained an attorney who is currently working to address the complaint. On August 9, 2019 the Company filed a motion to dismiss the charge of unjust enrichment. The judge granted the Company's motion to dismiss. The Company, through its attorney, is working to negotiate a settlement. Due to the backlog of cases before the Connecticut courts from COVID 19 related matters the case has been delayed as of June 30, 2021.

During the year ended September 30, 2019, two vendors have asserted claims for past due amounts of approximately \$59,000, arising from services provided. The Company has fully recognized in accounts payable the amounts associated with these claims and expects to resolve the matters to satisfaction of all parties.

Settlements

On January 29, 2018, the Company entered into a settlement agreement and mutual release with a vendor who had provided public relations and other consulting services whereby the Company shall pay to this vendor an aggregate amount of \$60,000 of which \$30,000 was paid on February 2, 2018. The Company was to have paid ten monthly payments of \$3,000 per month beginning on February 29, 2018. The vendor is to return 400 common shares of the Company's common stock which will be cancelled upon satisfaction of the liability. The liability is recorded at \$21,000 as of June 30, 2021 and September 30, 2020. The Company is in default of the settlement.

On November 13, 2018 the Company and a vendor agreed to settle \$161,700 in past due professional fees for a convertible note in the amount of \$90,000. The note bears interest at 5% and matures in July 2019, and has a fixed discount conversion feature. The note is now past due and remains unconverted at June 30, 2021; however there is no default interest of penalty associated with the default. The accrued balance as accounts payable of \$71,700 was recognized as a gain on debt

extinguishment upon receipt of the waiver and release from the vendor in fiscal 2019.

On December 30, 2020, a Howco vendor filed a lawsuit seeking payment of past due invoices totaling \$276,430 and finance charges of \$40,212. The Company has recorded the liability for the invoices in the normal course of business. \$40,212 has been recognized as expense for the finance charges and the accounts payable balance is \$351,006 as of June 30, 2021. Management at Howco as well as a consultant are in negotiation with the vendor and their legal counsel and have arrived at a likely settlement to the matter.

On January 13, 2021 Howco entered into a payment arrangement (promissory note) with Pacific Power LLC. The principal amount owed to this supplier is \$279,323 with an accumulated interest of \$60,437. Howco will pay Pacific Power LLC \$5,000 a month starting on February 1, 2021. Interest will accrue at 12% per annum on the outstanding balance. The unpaid balance of principal and accrued interest is due on December 31, 2022.

On February 8, 2021 Howco entered into a settlement agreement with Cummins Inc. Howco has agreed to pay \$43,358 plus interest to Cummins Inc. over the next two years. Howco will make six monthly installments of not less than \$1,500 a month for the first six months and \$2,000 a month thereafter until liquidated. Following payments during the nine months ended June 30, 2021 the balance recorded in accounts payable is \$35,048.

As of June 30, 2021, the Company has received demand for payment of past due amounts for services by several consultants and service providers.

The Impact of COVID-19

The Company is a wholesale vendor to the Department of Defense through its wholly owned subsidiary, Howco and is directly involved in distribution and integration of advanced low altitude UAV systems, services and products. Both the wholesale vendor and the integration/distribution aspects of the Company's business have been affected due to the COVID-19 social distancing requirements mandated by the federal, state and local governments where the Company's operations occur. For some businesses, like the Company's, much of the integration and distribution of its core products and delivery of its core services cannot always be done through "virtual" means, and even when this is possible, it requires significant capital and time to achieve. During the nine months ended June 30, 2021 sales and shipments at Howco have continued at a lower rate than during the nine months ended June 30, 2020.

Lease Obligations

The Company entered into an agreement with a manufacturer in Pismo Beach, California. The agreement provides for certain services to be provided by the manufacturer as needed by the Company. The agreement has an initial term of three years with one year renewals. In connection with this agreement, the Company has agreed to sublease space based in San Luis Obispo, California from the manufacturer for the purposes of the development and manufacturing of unmanned aerial vehicles. The lease provides for base monthly rent of approximately \$15,000 for the initial term to be increased to \$16,500 per month upon extension. The lease term begins February 1, 2017 and expires January 31, 2019 with the option to extend the term an additional 24 months. However, the Company never took possession of the premises and in July 2017, the Company made a decision to not take possession of the premises. The Company is in default of the rent payments and had received oral demand for payments. As of June 30, 2021, the Company has not made any of the required monthly rent payments in connection with this agreement. During fiscal 2017, the Company had expensed and accrued into accounts payable the remaining amounts due under the term of the lease for a total accrual of \$360,000 pursuant to ASC 420-10-30. This balance remains accrued as of June 30, 2021 and September 30, 2020.

On April 16, 2020 the Company's subsidiary Howco renewed its office and warehouse lease in Vancouver, WA for a term commencing on June 1, 2020 extending through June 1, 2023 at an initial monthly rent of approximately \$5,154. The lease requires monthly payments including base rent plus CAM with annual increases.

The Company recognized a right-of-use asset of and a lease liability of \$156,554, which represents the fair value of the lease payments calculated as present value of the minimum lease payments using a discount rate of 10% on date of the lease renewal in accordance with ASC 842. The asset and liability will be amortized as monthly payments are made and lease expense will be recognized on a straight-line basis over the term of the lease.

Right of use asset (ROU) is summarized below:

	June 30, 2021
Operating lease at inception - June 2, 2020	\$ 156,554
Less accumulated reduction	(57,741)
Balance ROU asset as of June 30, 2021	<u>\$ 98,813</u>

Operating lease liability related to the ROU asset is summarized below:

Operating lease liabilities at inception - June 2, 2020	\$ 156,554
Reduction of lease liabilities	(56,542)
Total lease liabilities - June 30, 2021	<u>\$ 100,012</u>
Less: current portion	(52,181)
Lease liabilities, non-current	<u>\$ 47,831</u>

Non-cancellable operating lease total future payments at June 30, 2021 are summarized below:

Total minimum operating lease payments	<u>\$ 122,012</u>
Less discount to fair value	(22,000)
Total lease liability at June 30, 2021	<u>\$ 100,012</u>

F-35

Future minimum lease payments under non-cancellable operating leases at June 30, 2021 are as follows:

Years ending September 30,	Amount
2021	\$ 15,714
2022	63,369
2023	42,929
Total minimum non-cancelable operating lease payments	<u>\$ 122,012</u>

For the nine months ended June 30, 2021 and 2020, rent expense for all leases amounted to \$52,761 and \$45,891, respectively.

In December 2019, the Company relocated its primary office to 195 Paterson Avenue, Little Falls, New Jersey, under a one-year lease with a renewal option having monthly payments of \$500. The lease has not been renewed as of June 30, 2021; however, the property manager has agreed to month-to-month payments.

Profit Sharing Plan (for Howco)

On April 13, 2018, Howco announced to its employees a Company-wide profit-sharing program. The employee profit share is equal to their annual salary divided by the Company's total annual payroll and multiplied by 10% of net income for the fiscal year. During the nine months ended June 30, 2021 and 2020 the employees earned \$0 and \$0, under this plan.

Notice of Default

On September 6, 2019, the Company received a notice of default under its senior secured credit facility with TCA, for non-payment of amounts due among other matters. Left uncured the default remedies include seizure of operating assets such as the Company's subsidiary. Additionally, the default may trigger cross default provisions under agreements with other creditors.

During the year ended September 30, 2020, Crown Bridge Partners notified the Company of a default on their convertible note dated March 1, 2019. The principal was increased by charges of \$17,500 for technical default effective June 30, 2020 and an additional put premium was calculated to be \$26,250. Management believes that following conversions to common stock during fiscal year 2020, the principal and interest owed totaled approximately \$9,100 as of June 30, 2021.

Directors' & Officers' Insurance Policy Expiration

On October 11, 2019, the Company's insurance policy covering directors and officers expired and the carrier declined to renew the policy. The Company is working with its broker and other carriers to obtain coverage. This lapse of insurance coverage exposes the Company to the risk associated with its indemnification of its officers against legal actions by third parties as outlined in the officers' employment agreements as amended on September 16, 2019.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Cautionary Note Regarding Forward-Looking Information and Factors That May Affect Future Results

This quarterly report on Form 10-Q contains forward-looking statements regarding our business, financial condition, results of operations and prospects. The Securities and Exchange Commission (the "SEC") encourages companies to disclose forward-looking information so that investors can better understand a company's future prospects and make informed investment decisions. This quarterly report on Form 10-Q and other written and oral statements that we make from time to time contain such forward-looking statements that set out anticipated results based on management's plans and assumptions regarding future events or performance. We have tried, wherever possible, to identify such statements by using words such as "anticipate," "estimate," "expect," "project," "intend," "plan," "believe," "will" and similar expressions in connection with any discussion of future operating or financial performance. In particular, these include statements relating to future actions, future performance or results of current and anticipated sales efforts, expenses, the outcome of contingencies, such as legal proceedings, and financial results. Factors that could cause our actual results of operations and financial condition to differ materially are set forth in the "Risk Factors" section of our annual report on Form 10-K for the fiscal year ended September 30, 2020, as filed with the SEC on January 12, 2021.

We caution that these factors could cause our actual results of operations and financial condition to differ materially from those expressed in any forward-looking statements we make and that investors should not place undue reliance on any such forward-looking statements. Further, any forward-looking statement speaks only as of the date on which such statement is made, and we undertake no obligation to update any forward-looking statement to reflect events or circumstances after the date on which such statement is made or to reflect the occurrence of anticipated or unanticipated events or circumstances. New factors emerge from time to time, and it is not possible for us to predict all of such factors. Further, we cannot assess the impact of each such factor on our results of operations or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

The following discussion should be read in conjunction with our condensed consolidated financial statements and the related notes that appear elsewhere in this quarterly report on Form 10-Q.

Overview

Bantec, Inc. is a distributor, construction, environmental and drone company. Through Howco Distributing Co, Bantec provides product procurement, distribution, and logistics services, to the United States Department of Defense and Defense Logistics Agency. The Company has operations based in Little Falls, New Jersey and Vancouver, Washington. The Company continues to seek strategic acquisitions and partnerships with distributor, construction, environmental and drone firms that offer growth opportunities in well established markets, as well as acquisitions and partnerships with firms that have complementary technologies, services, products and infrastructure.

Liquidity and Capital Resources

As of June 30, 2021, we had \$401,269 in current assets, including \$124,895 in cash, compared to \$593,405 in current assets, including \$164,014 in cash, at September 30, 2020. Current liabilities at June 30, 2021, totaled \$16,293,226, compared to \$16,807,686, at September 30, 2020. The decrease in current assets from September 30, 2020 to June 30, 2021 is primarily due to decreases in: accounts receivable of \$116,090, prepaid expenses \$30,810, cash of \$39,119 and inventory of \$6,117. The decrease in current liabilities from September 30, 2020 to June 30, 2021, of approximately \$514,000, is primarily due to the decreases in: convertible notes payable of approximately \$340,000 and related premiums of approximately \$375,000. While we have revenues from UAV sales as of this date, no significant UAV revenues are anticipated until we have implemented our full plan of operations, specifically, initiating sales campaigns for our UAV internet and social media platforms. We recently acquired a patent for a drone operated delivery receptacle. We believe the drone package delivery market will rapidly grow over the next several years. Eventually restaurant take out, groceries, prescription drugs and many other items will be transported efficiently via drones. In anticipation of upcoming drone deliver market we acquired several domains: banteceats.com, bantecdelivery.com, bantecdronedelivery.com and bantecflyeats.com. On February 1, 2021 we signed an agreement with Accurate Franchising to create the Bantec Sanitizing Franchise. We intend to start selling franchises in the next 45 to 60 days. We intend to start selling in New Jersey, Connecticut, Massachusetts, Delaware, Pennsylvania, and Maryland. On the construction side, we are pursuing flooring projects. We see an incredible potential here. In the next few months, we will decide if we want to create a flooring installation franchise. We must raise cash to implement our strategy to grow and expand per our business plan. We anticipate over the next 12 months the cost of being a reporting public company will be approximately \$250,000.

Following our first public offering during fiscal 2020 wherein we raised \$1,287,630, used largely to pay down debt, we are currently issuing shares under a third S-1 offering, under which we have received subscriptions of over \$200,000. We expect to raise additional proceeds with debt securities, and/or more loans. Though not expected, if sufficient funding is not available, we would be required to cease business operations. As a result, investors would lose all of their investment. Under the terms of our credit agreement with TCA, all potential new investments must first be reviewed and approved by TCA, which may constrain our options for new fundraising. However, we have been in contact with the receiver for the TCA management companies and funds and do not expect any such objections over investment opportunities.

liabilities. Once this is completed, we implement our sales and marketing plan to sell UAV products, we anticipate minimal long-term liquidity needs which we expect to meet through equity financing or short-term borrowings.

Additionally, we will have to meet all the financial disclosure and reporting requirements associated with being a publicly reporting company. Our management will have to spend additional time on policies and procedures to make sure it is compliant with various regulatory requirements, especially that of Section 404 of the Sarbanes-Oxley Act of 2002. This additional corporate governance time required of management could limit the amount of time management has to implement the business plan and may impede the speed of its operations.

The following is a summary of the Company's cash flows provided by (used in) operating, investing and financing activities:

Results of Operations

Three months Ended June 30, 2021 and 2020

We generated sales of \$622,423 and \$1,144,893 for the three months ended June 30, 2021 and 2020, respectively, a decrease of approximately \$522,000, or 46%. For the three months ended June 30, 2021 and 2020, we reported cost of goods sold of \$494,107 and \$831,922, respectively, a decrease of approximately \$338,000, or 41%. The decrease in sales and cost of goods sold for the 2021 period as compared to the 2020 period is due to COVID 19 restrictions and lower sales in current period due to liquidity issues and our efforts to increase gross margins by reducing sales of lower margin products. While management's focus on increasing gross margins has impacted sales levels, we believe that the Company is situated to capture greater sales without incurring significant fixed costs through three initiatives.

For the three months ended June 30, 2021 and 2020, we reported selling, general, and administrative expenses of \$790,539 as compared to \$615,596, an increase of approximately \$175,000, or 28%. For the three months ended June 30, 2021 and 2020, selling, general, and administrative expenses consisted of the following:

	For the Three Months ended June 30, 2021	For the Three Months ended June 30, 2020
Compensation and related benefits	\$ 384,580	\$ 470,461
Professional fees	291,081	71,424
Other selling, general and administrative expenses	114,878	73,711
Total selling, general and administrative expenses	\$ 790,539	\$ 615,596

The increase in selling, general, and administrative costs for the 2021 period as compared to the 2020 period was due to the increases in professional fees and other selling, general and administrative costs, partially offset by decreased compensation costs.

For the three months ended June 30, 2021 and 2020, depreciation expense amounted to \$2,458 and \$2,772, respectively, and related to the depreciation of demonstration drones.

For the three months ended June 30, 2021 and 2020, other income (expense) amounted to (\$299,001) and (\$1,910,195), respectively, a decrease in expense of approximately \$1,611,000, or 84%. The increase was attributable costs associated with changing the conversion terms of related and third party notes.

As a result, we reported net losses of \$963,682 or \$0.00 per common share, and \$2,215,592, or \$0.043 per common share, for the three months ended June 30, 2021 and 2020, respectively.

Nine months Ended June 30, 2021 and 2020

We generated sales of \$2,034,327 and \$3,623,323 for the nine months ended June 30, 2021 and 2020, respectively, a decrease of \$1,588,996, or 44%. For the nine months ended June 30, 2021 and 2020, we reported cost of goods sold of \$1,229,348 and \$2,799,918, respectively, a decrease of \$1,570,570, or 56%. The decrease in sales and cost of goods sold for the 2021 period as compared to the 2020 period is due to liquidity issues and ceasing our sales of certain low margin products from certain vendors. Gross margin improved from 40% to 21% in the nine months ended in June 30, 2021, compared to the 2020 period. This is due primarily to the packaging line of business with low cost expenditures, which represented 24% of Howco's sales for the nine months ended June 30, 2021. While management's focus on increasing gross margins has impacted sales levels, we believe that the Company is situated to recapture sales without incurring significant fixed costs through three initiatives. Efforts are underway to market an expanded suite of Howco product lines on the east coast. We are expanding product offerings with high tech tactical gear to regular federal government entities (Howco lines of business), adding the high tech tactical gear to our traditional drone assemblies along with newer more rapidly deployed drones focused on municipalities and lastly we are adding construction contracting.

For the nine months ended June 30, 2021 and 2020, we reported selling, general, and administrative expenses of \$2,277,418 as compared to \$2,063,920, an increase of \$213,498, or 10%. For the nine months ended June 30, 2021 and 2020, selling, general, and administrative expenses consisted of the following:

	For the Nine Months ended June 30, 2021	For the Nine Months ended June 30, 2020
Compensation and related benefits	\$ 1,301,925	\$ 1,349,103
Professional fees	726,986	512,222
Other selling, general and administrative expenses	248,507	202,595
Total selling, general and administrative expenses	\$ 2,277,418	\$ 2,063,920

The increase in selling, general, and administrative costs for the 2021 period as compared to the 2020 period was due to increases in professional fees and other selling, general and administrative expenses of approximately \$215,000 and \$46,000, with a partially offset due to a decrease in compensation costs of

For the nine months ended June 30, 2021 and 2020, depreciation expense amounted to \$7,374 and \$8,316, respectively for demonstration drones.

For the nine months ended June 30, 2021 and 2020, other income (expense) amounted to \$326,691 and (\$2,487,824), respectively, an decrease of costs of \$2,814,515 or 113%. The decrease was primarily attributable to gains on debt extinguishment of \$1,365,988 during the 2021 period compared to losses on debt extinguishment of \$1,318,092 during the 2020 period. Gains were recognized for debt forgiveness and cash payments for debt both of which resulted in gain recognition compared to amendments of related party promissory notes during the prior period which resulted in loss recognition.

As a result, we reported a net loss of \$1,153,122 or \$0.00 per common share, and \$3,736,655, or \$0.19 per common share, for the nine months ended June 30, 2021 and 2020, respectively.

Going Concern

The accompanying unaudited consolidated financial statements have been prepared assuming the Company will continue as a going concern, which contemplates the recoverability of assets and the satisfaction of liabilities in the normal course of business. For the nine months ended June 30, 2021, the Company has a net loss of \$1,153,122 and used cash in operations of \$911,075. The working capital deficit, stockholders' deficit and accumulated deficit was \$15,891,953, \$16,144,304 and \$32,227,891, respectively, at June 30, 2021. Furthermore, on September 6, 2019 the Company received a default notice on its payment obligations under the senior secured credit facility agreement (see Note 9), defaulted on its Note Payable – Seller in September 2017 and has since defaulted on other promissory notes. As of June 30, 2021, the Company has received demands for payment of past due amounts from several consultants and service providers. It is management's opinion that these matters raise substantial doubt about the Company's ability to continue as a going concern for a period of twelve months from the issuance date of this report. The ability of the Company to continue as a going concern is dependent upon management's ability to further implement its business plan and raise additional capital as needed from the sales of stock or debt. The Company has continued to implement cost-cutting measures and restructuring or setting up payment plans with vendors and service providers and plans to raise equity through a private placement, and restructure or repay its secured obligations. The accompanying consolidated financial statements do not include any adjustments that might be required should the Company be unable to continue as a going concern.

Critical Accounting Policies

Our consolidated financial statements and accompanying notes have been prepared in accordance with United States generally accepted accounting principles applied on a consistent basis. The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods.

We regularly evaluate the accounting policies and estimates that we use to prepare our consolidated financial statements. In general, management's estimates are based on historical experience, and on various other assumptions that are believed to be reasonable under the facts and circumstances. Actual results could differ from those estimates made by management.

Accounts Receivable

Trade receivables are recorded at net realizable value consisting of the carrying amount less the allowance for doubtful accounts, as needed. Factors used to establish an allowance include the credit quality of the customer and whether the balance is significant. The Company may also use the direct write-off method to account for uncollectible accounts that are not received. Using the direct write-off method, trade receivable balances are written off to bad debt expense when an account balance is deemed to be uncollectible.

Inventory

Inventory consists of finished goods, which are purchased directly from manufacturers. The Company utilizes a just in time type of inventory system where products are ordered from the vendor only when the Company has received sales order from its customers. Inventory is stated at the lower of cost and net realizable value on a first-in, first-out basis.

Long-Lived Assets

Long-lived assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying value may not be recoverable. Impairment is measured by comparing the carrying value of the long-lived assets to the estimated undiscounted future cash flows expected to result from use of the assets and their ultimate disposition. In instances where impairment is determined to exist, the Company writes down the asset to its fair value based on the present value of estimated future cash flows.

Revenue Recognition

The Company sells a variety of products and related services (packaging) to government and other entities. The purchase orders received specifies each item and its manufacturer; the Company only needs to fulfill the performance obligation by shipping the specified items. No other performance obligations exist under the terms of the contracts. The Company recognizes revenue for the agreed upon sales price when the product is shipped to the customer, which satisfies the performance obligation.

The Company sells drones and related products manufactured by third parties to various parties. The Company also offers technical services related to drone utilization. The Company began offering insulation jackets for commercial and government facilities to insulate and monitor heating and cooling equipment. Contracts for drone related products and services and insulating jacket related sales will be evaluated using the process proscribed by the Financial Accounting Standards Board. There has been no material sales for drone products and services for which full compliance with performance obligations has not been met. Sales of insulation jackets have not yet commenced. Upon significant sales for drone products and services and insulation jackets, the Company will disaggregate sales by these lines of business and within the lines of business to the extent that the product or service has different revenue recognition characteristics.

Stock-Based Compensation

Stock-based compensation is accounted for based on the requirements of ASC 718 – “*Compensation – Stock Compensation*”, which requires recognition in the financial statements of the cost of employee and director services received in exchange for an award of equity instruments over the period the employee or director is required to perform the services in exchange for the award (presumptively, the vesting period). The ASC also requires measurement of the cost of employee and director services received in exchange for an award based on the grant-date fair value of the award. The Company utilizes the Black-Sholes option pricing model and uses the simplified method to determine expected term because of lack of sufficient exercise history. Additionally, effective October 1, 2016, the

Company adopted the Accounting Standards Update No. 2016-09 (“ASU 2016-09”), *Improvements to Employee Share-Based Payment Accounting*. Among other changes, ASU 2016-09 permits the election of an accounting policy for forfeitures of share-based payment awards, either to recognize forfeitures as they occur or estimate forfeitures over the vesting period of the award. The Company has elected to recognize forfeitures as they occur and the cumulative impact of this change did not have any effect on the Company’s consolidated financial statements and related disclosures.

As of October 1, 2018, the Company has early adopted ASU 2018-7 Compensation-Stock Compensation which conforms the accounting for non-employees to the accounting treatment for employees. The new standard replaces using a fair value as of each reporting date with use of the calculated fair value as of the grant date. The implementation of the standard provides for the use of the fair market value as of the adoption date, rather than using the value as of the original grant date. Therefore, the values calculated and reported at September 30, 2018 become a proxy for the grant date value. The Company utilizes the Black-Sholes option pricing model and uses the simplified method to determine expected term because of lack of sufficient exercise history. There was no cumulative effect on the adoption date.

Derivative Liabilities

The Company has certain financial instruments that are derivatives or contain embedded derivatives. The Company evaluates all its financial instruments to determine if those contracts or any potential embedded components of those contracts qualify as derivatives to be separately accounted for in accordance with ASC 810-10-05-4 and 815-40. This accounting treatment requires that the carrying amount of any derivatives be recorded at fair value at issuance and marked-to-market at each balance sheet date. In the event that the fair value is recorded as a liability, as is the case with the Company, the change in the fair value during the period is recorded as either other income or expense. Upon conversion, exercise or repayment, the respective derivative liability is marked to fair value at the conversion, repayment or exercise date and then the related fair value amount is reclassified to other income or expense as part of gain or loss on extinguishment.

Convertible Notes with Fixed Rate Conversion Options

We may enter into convertible notes, some of which contain, predominantly, fixed rate conversion features, whereby the outstanding principal and accrued interest may be converted by the holder, into common shares at a fixed discount to the market price of the common stock at the time of conversion. This results in a fair value of the convertible note being equal to a fixed monetary amount. We record the convertible note liability at its fixed monetary amount by measuring and recording a premium, as applicable, on the Note date with a charge to interest expense in accordance with ASC 480 - “Distinguishing Liabilities from Equity”.

Net Loss Per Share

Basic loss per share is calculated by dividing the loss attributable to stockholders by the weighted-average number of shares outstanding for the period. Diluted loss per share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock or resulted in the issuance of common stock that shared in the earnings (loss) of the Company. Diluted loss per share is computed by dividing the loss available to stockholders by the weighted average number of shares outstanding for the period and dilutive potential shares outstanding unless such dilutive potential shares would result in anti-dilution.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to our stockholders.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure controls and procedures

We maintain “disclosure controls and procedures,” as that term is defined in Rule 13a-15(e), promulgated by the SEC pursuant to the Securities Exchange Act of 1934, as amended (the “Exchange Act”). Disclosure controls and procedures include controls and procedures designed to ensure that information required to be disclosed in our reports filed under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms, and that such information is accumulated and communicated to our management, including the principal executive officer and principal financial officer, to allow timely decisions regarding required disclosure. Our management, with the participation of the principal executive officer and principal financial officer, evaluated our disclosure controls and procedures as of the end of the period covered by this quarterly report on Form 10-Q. Based on this evaluation, our principal executive officer and principal financial officer concluded that as of June 30, 2021, our disclosure controls and procedures were not effective.

The ineffectiveness of our disclosure controls and procedures was due to the following material weaknesses in our internal control over financial reporting. Currently there is no staff with knowledge of Generally Accepted Accounting Procedures on site at Howco. Since the resignation of our former CFO in July 2017, we have not had a qualified in-house financial accounting expert to maintain our parent company and consolidation level books and records. To remediate this situation, we have engaged outsourced accountants.

Changes in internal control over financial reporting

There were no changes in our internal control over financial reporting during the quarter ended June 30, 2021 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

In connection with the merger with Texas Wyoming Drilling, Inc., a vendor has a claim for unpaid bills of approximately \$75,000 against the company. The Company and its legal counsel believe the Company is not liable for the claim pursuant to its indemnification clause in the merger agreement.

On February 6, 2018 the Company sent a letter to the previous owners of Howco Distributing Co. (“Howco”) alleging that they made certain financial misrepresentations under the terms of the Stock Purchase Agreement by which the Company acquired control of Howco during 2016. The Company claimed that the previous owners took excessive amounts of cash from the business prior to the close of the merger. On March 13, 2018 the Company filed a lawsuit against the previous owners by issuing a summons. On April 12, 2018, the Company received the Defendants’ answer. On July 22, 2019, the Company was granted a dismissal without prejudice of the lawsuit filed against the previous owners of Howco. The Company and the previous owners are in discussion to settle the matter as of June

30, 2021. An oral agreement has been made whereby the Company will pay the previous owners \$3,000 per month.

On February 11, 2019, the Supreme Court of the State of New York issued a summons to the former CFO of the Company, to appear before the court to answer the Company's complaint seeking payment under a personal guarantee of the defendant to provide half of any compensation paid to the former Chief Strategy Officer. The Company is seeking \$300,000 from the defendant relating to the November 27, 2018 settlement agreement with the former Chief Strategy Office for \$600,000. The former CFO has responded to the suit and has filed a motion to dismiss the Company's suit during August of 2019. The judge presiding ruled to dismiss the defendant's motion. Currently, the Company is in discussion with the former CFO's legal counsel to resolve the matter.

On April 10, 2019, a former service provider filed a complaint with three charges with the Superior Court Judicial District of New Haven, CT seeking payment for professional services. The Company has previously recognized expenses of \$218,637, which remain unpaid in accounts payable. The Company has retained an attorney who is currently working to address the complaint. On August 9, 2019 the Company filed a motion to dismiss the charge of unjust enrichment. The judge granted the Company's motion to dismiss. The Company, through its attorney, is working to negotiate a settlement.

During the year ended September 30, 2019, two vendors (The Equity Group and Toppan Vintage) have asserted claims for past due amounts of approximately \$59,000, arising from services provided. The Company has fully recognized in accounts payable the amounts associated with these claims and expects to resolve the matters to satisfaction of all parties.

On December 30, 2020, a Howco vendor filed a lawsuit seeking payment of past due invoices totaling \$276,430 and finance charges of \$40,212. The Company has recorded the liability for the invoices in the normal course of business. Management at Howco as well as a consultant are in negotiation with the vendor and their legal counsel and expect to settle the matter.
