BANTEC, INC. AND SUBSIDIARIES
CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2022
(Unaudited)

NOTE 1 - NATURE OF OPERATIONS

Bantec, Inc. is a product and service company targeting the U.S. Government, state governments, municipalities, hospitals, universities, manufacturers and other building owners. Bantec also provides product procurement, distribution, and logistics services through its wholly-owned subsidiary, Howco Distributing Co., (“Howco”) (collectively, the “Company”) to the United States Department of Defense and Defense Logistics Agency. The Company established Bantec Sanitizing in fiscal 2021, which offers sanitizing products and equipment through its new store bantec.store. Bantec Sanitizing is currently offering Bantec Sanitizing franchises for sale. Bantec Construction, LLC was established to perform general contracting, currently the plan for the company is to provide general contracting for projects emanating from Bantec Sanitizing for floor, wall and ceiling installation of materials that are easily sanitized. The Company has operations based in Little Falls, New Jersey and Vancouver, Washington. The Company continues to seek strategic acquisitions and partnerships that offer us an opportunity to grow sales and profit.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND GOING CONCERN

Basis of Presentation and Principles of Consolidation

The accompanying unaudited consolidated financial statements include the accounts of Bantec, Inc. and its wholly-owned subsidiaries, Drone USA, LLC, Bantec Construction, LLC, Bantec Sanitizing, LLC, Bantec Logistics LLC and Howco. Bantec Construction, LLC, Bantec Logistics and Bantec Sanitizing, LLC are in start-up stages with minor revenues and cash expenditures. All significant intercompany accounts and transactions have been eliminated in consolidation. On October 28, 2021, the Wyoming Secretary of State approved the application to create Bantec Logistics, LLC which will include a new line of business focused on drone package delivery logistics and other delivery methods.

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) and the rules and regulations of the Securities and Exchange Commission for interim financial information. Accordingly, certain information and footnote disclosures normally included in financial statements in accordance with GAAP have been omitted. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation have been included. Operating results for the nine months ended June 30, 2022 are not necessarily indicative of the results that may be expected for the year ending September 30, 2022. The unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements as of and for the year ended September 30, 2021 and footnotes thereto included in the Company’s Annual Report on Form 10-K filed with the SEC on January 7, 2022. The consolidated balance sheet as of September 30, 2021 contained herein has been derived from the audited consolidated financial statements as of September 30, 2021 but does not include all disclosures required by GAAP.

Going Concern

The accompanying unaudited consolidated financial statements have been prepared assuming the Company will continue as a going concern, which contemplates the recoverability of assets and the satisfaction of liabilities in the normal course of business. For the nine months ended June 30, 2022, the Company has incurred a

net loss of \$2,032,933 and used cash in operations of \$1,240,506. The working capital deficit, stockholders' deficit and accumulated deficit was \$15,663,885, \$15,588,253 and \$34,989,773, respectively, at June 30, 2022. Furthermore, on September 6, 2019 the Company received a default notice on its payment obligations under the senior secured credit facility agreement (see Note 10), defaulted on its Note Payable – Seller in September 2017 and has since defaulted on other promissory notes. As of June 30, 2022 the Company has received demands for payment of past due amounts from several consultants and service providers. It is management's opinion that these matters raise substantial doubt about the Company's ability to continue as a going concern for a period of twelve months from the issuance date of this report. The ability of the Company to continue as a going concern is dependent upon management's ability to further implement its business plan and raise additional capital as needed from the sales of stock or debt. The Company has continued to implement cost-cutting measures and restructuring or setting up payment plans with vendors and service providers and plans to raise equity through a private placement, and restructure or repay its secured obligations. The accompanying consolidated financial statements do not include any adjustments that might be required should the Company be unable to continue as a going concern.

Use of Estimates

The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Significant estimates include the allowance for bad debt on accounts receivable, reserves on inventory, valuation of intangible assets for impairment analysis, valuation of the lease liability and related right-of-use asset, valuation of stock-based compensation, the valuation of derivative liabilities and the valuation allowance on deferred tax assets.

Fair Value Measurements

The Company follows the FASB *Fair Value Measurements* standard, as they apply to its financial instruments. This standard defines fair value, outlines a framework for measuring fair value, and details the required disclosures about fair value measurements.

BANTEC, INC. AND SUBSIDIARIES
CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2022
(Unaudited)

Fair value is defined as the price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date. The standard establishes a hierarchy in determining the fair value of an asset or liability. The fair value hierarchy has three levels of inputs, both observable and unobservable. Level 1 inputs include quoted market prices for identical assets or liabilities in an active market that the Company has the ability to access at the measurement date. Level 2 inputs are market data, other than Level 1, that are observable either directly or indirectly. Level 2 inputs include quoted market prices for similar assets or liabilities, quoted market prices in an inactive market, and other observable information that can be corroborated by market data. Level 3 inputs are unobservable and corroborated by little or no market data. The standard requires the utilization of the lowest possible level of input to determine fair value and carrying amounts of current liabilities approximate fair value due to their short-term nature. The Company accounts for certain instruments at fair value using level 3 valuation.

Description	At June 30, 2022			At September 30, 2021		
	Level 1	Level 2	Level 3	Level 1	Level 2	Level 3
Derivative Liability	-	-	\$ 134,403	-	-	\$ 125,693

A roll-forward of the level 3 valuation financial instruments is as follows:

	Derivative Liabilities
Balance at September 30, 2021	\$ 125,693
Change in fair market value of warrant	8,710
Balance at June 30, 2022	\$ 134,403

The warrants were issued to a convertible note holder in November and December 2017 and initially determined to be equity instruments and recorded as note discount and as additional paid in capital. On June 4, 2018 the anti-dilutive provision of the warrants took effect and based on the new conversion formula management determined the warrant became a derivative liability and reclassified the Fair Value on June 4, 2018 from additional paid-in capital to derivative liability with fair market value changes recognized in operations for each reporting date. The derivative liability associated with the warrants is \$134,403 at June 30, 2022.

Cash and Cash Equivalents

Cash equivalents consist of liquid investments with maturities of three months or less at the time of purchase. There are no cash equivalents at the balance sheet dates.

Accounts Receivable

Trade receivables are recorded at net realizable value consisting of the carrying amount less the allowance for doubtful accounts, as needed. Factors used to establish an allowance include the credit quality of the customer and whether the balance is significant. The Company may also use the direct write-off method to account for uncollectible accounts that are not received. Using the direct write-off method, trade receivable balances are written off to bad debt expense when an account balance is deemed to be uncollectible.

Inventory

Inventory consists of finished goods, which are purchased directly from manufacturers. The Company utilizes a just in time type of inventory system where products are ordered from the vendor only when the Company has received sales order from its customers. Inventory is stated at the lower of cost and net realizable value on a first-in, first-out basis.

Property & Equipment

Property and equipment are stated at cost and depreciated over their estimated useful lives. Maintenance and repairs are charged to expense as incurred. When assets are retired or disposed of, the cost and accumulated depreciation are removed from the accounts, and any resulting gains or losses are included in income in the year of disposition. The Company examines the possibility of decreases in the value of these assets when events or changes in circumstances reflect the fact that their recorded value may not be recoverable. The assets are fully operational drones used as demonstration units and each unit exceeds management's threshold for capitalization of \$2,000. The Company depreciates these demonstration units over a period of 3 years. Depreciation expense was \$0 and \$7,374 in nine months ended June 30, 2022 and 2021, respectively. No depreciation was recognized during the nine months ended June 30, 2022, as the related equipment was depreciated to salvageable value as of September 30, 2021. Management believes that the salvageable value of \$1,461 is an adequate representation of the value of the demonstration drones at June 30, 2022.

BANTEC, INC. AND SUBSIDIARIES
CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2022
(Unaudited)

Goodwill and Intangible Assets

The Company acquired a patent for a new product during the year ended September 30, 2021. The Company capitalized acquisition and related legal fees related to the patent totaling \$44,650. The capitalized amount will be amortized over the five years. Impairment will be tested annually or as indicators of impairment are available.

Long-Lived Assets

Long-lived assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying value may not be recoverable. Impairment is determined by comparing the carrying value of the long-lived assets to the estimated undiscounted future cash flows expected to result from use of the assets and their ultimate disposition. In instances where impairment is determined to exist, the Company writes down the asset to its fair value based on the present value of estimated future cash flows.

Deferred Financing Costs

All unamortized deferred financing costs related to the Company's borrowings are presented in the consolidated balance sheets as a direct deduction from the related debt. Amortization of these costs is reported as *interest and financing costs* included in the consolidated statement of operations.

Revenue Recognition

The Company follows Accounting Standards Codification ("ASC") 606, Revenue From Contracts With Customers, which has a five-step process: a) Determine whether a contract exists; b) Identify the performance obligations; c) Determine the transaction price; d) Allocate the transaction price; and e) Recognize revenue when (or as) performance obligations are satisfied.

The Company sells a variety of products to government entities. The purchase orders received specifies each item and its manufacturer; the Company only needs to fulfill the performance obligation by shipping the specified items. No other performance obligations exist under the terms of the contracts. The Company recognizes revenue for the agreed upon sales price when the product is shipped to the customer, which satisfies the performance obligation.

During the year ended September 30, 2021 and the nine months ended June 30, 2022, the Company through its subsidiary Howco entered into contracts to package products for a third-party company servicing the same government customer base. The contracts were on job lot basis as shipped to Howco for packaging. The customer was billed upon completion each job lot at which time revenue was recognized.

The Company sells drones and related products manufactured by third parties to various parties, primarily local government entities. The Company also offers technical services related to drone utilization and performs other services. Contracts for drone related products and services sales will be evaluated using the five-step process outline above. There have been no material sales for drone products or other services for which full compliance with performance obligations has not been met. Upon significant sales for drone products and services and insulation jackets, the Company will disaggregate sales by these lines of business and within the lines of business to the extent that the product or service has different revenue recognition characteristics.

The Company began sales of sanitizing products and services during the nine months ended June 30, 2022. Revenue for this line of business is recognized upon shipment and delivery of training services (as applicable).

Stock-based compensation

Stock-based compensation is accounted for based on the requirements of ASC 718 – "*Compensation – Stock Compensation*", which requires recognition in the financial statements of the cost of employee and director services received in exchange for an award of equity instruments over the period the employee or director is required to perform the services in exchange for the award (presumptively, the vesting period). The ASC also requires measurement of the cost of employee and director services received in exchange for an award based on the grant-date fair value of the award. The Company utilizes the Black-Sholes option pricing model and uses the simplified method to determine expected term because of lack of sufficient exercise history. Additionally, effective October 1, 2016, the Company adopted the Accounting Standards Update No. 2016-09 ("ASU 2016-09"), *Improvements to Employee Share-Based Payment Accounting*. Among other changes, ASU 2016-09 permits the election of an accounting policy for forfeitures of share-based payment awards, either to recognize forfeitures as they occur or estimate forfeitures over the vesting period of the award. The Company has elected to recognize forfeitures as they occur and the cumulative impact of this change did not have any effect on the Company's consolidated financial statements and related disclosures.

BANTEC, INC. AND SUBSIDIARIES
CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2022
(Unaudited)

As of October 1, 2018, the Company has early adopted ASU 2018-7 Compensation-Stock Compensation which conforms the accounting for non-employees to the accounting treatment for employees. The new standard replaces using a fair value as of each reporting date with use of the calculated fair value as of the grant date. The implementation of the standard provides for the use of the fair market value as of the adoption date, rather than using the value as of the original grant date. Therefore, the values calculated and reported at September 30, 2018 become a proxy for the grant date value. The Company utilizes the Black-Sholes option pricing model and uses the simplified method to determine expected term because of lack of sufficient exercise history. There was no cumulative effect on the adoption date.

Shipping and Handling Costs

The Company has included freight-out as a component of cost of sales, which amounted to \$45,316 and \$25,019 for the nine months ended June 30, 2022 and 2021, respectively.

Convertible Notes with Fixed Rate Conversion Options

The Company may enter into convertible notes, some of which contain, predominantly, fixed rate conversion features, whereby the outstanding principal and accrued interest may be converted by the holder, into common shares at a fixed discount to the market price of the common stock at the time of conversion. This results in a fair value of the convertible note being equal to a fixed monetary amount. The Company records the convertible note liability at its fixed monetary

Derivative Liabilities

The Company has certain financial instruments that are derivatives or contain embedded derivatives. The Company evaluates all its financial instruments to determine if those contracts or any potential embedded components of those contracts qualify as derivatives to be separately accounted for in accordance with ASC 810-10-05-4 and 815-40. This accounting treatment requires that the carrying amount of any derivatives be recorded at fair value at issuance and marked-to-market at each balance sheet date. In the event that the fair value is recorded as a liability, as is the case with the Company, the change in the fair value during the period is recorded as either other income or expense. Upon conversion, exercise or repayment, the respective derivative liability is marked to fair value at the conversion, repayment or exercise date and then the related fair value amount is reclassified to other income or expense as part of gain or loss on extinguishment.

Lease Accounting

In February 2016, the FASB issued a new accounting standard on leases. The new standard, among other changes, requires lessees to recognize a right-of-use asset and a lease liability on the balance sheet for all leases. The lease liability will be measured at the present value of the lease payments over the lease term. The right-of-use asset will be measured at the lease liability amount, adjusted for lease prepayments, lease incentives received and the lessee’s initial direct costs (e.g. commissions). The new standard is effective for annual reporting periods beginning after December 15, 2018, including interim reporting periods within those annual reporting periods. The adoption will require a modified retrospective approach for leases that exist or are entered into after the beginning of the earliest period presented.

The Company’s subsidiary has renewed the lease for the warehouse and office facility in Vancouver, Washington in May 2020 effective June 1, 2020, which extends through May 30, 2023, and is accounted for under ASC 842. The corporate office is an annual arrangement which provides for a single office in a shared office environment and is exempt from ASC 842 treatment. During the year ended September 30, 2020 the Company recognized a lease liability of \$156,554 and the related right-of-use asset for the same amount and will amortize both over the life of the lease.

Income Taxes

The Company’s current provision for income taxes is based upon its estimated taxable income in each of the jurisdictions in which it operates, after considering the impact on taxable income of temporary differences resulting from different treatment of items for tax and financial reporting purposes. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and any operating loss or tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the year in which those temporary differences are expected to be recovered or settled. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income in those periods in which temporary differences become deductible. Should management determine that it is more likely than not that some portion of the deferred tax assets will not be realized, a valuation allowance against the deferred tax assets would be established in the period such determination was made. The Company follows the accounting for uncertainty in income taxes guidance, which clarifies the accounting and disclosures for uncertainty in income taxes recognized in the Company’s financial statements and prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. It also provides guidance on derecognition and measurement of a tax position taken or expected to be taken in a tax return.

BANTEC, INC. AND SUBSIDIARIES
CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2022
(Unaudited)

The Company currently has no federal or state tax examinations in progress. As of June 30, 2022, the Company’s tax returns for the tax years 2020, 2019 and 2018 remain subject to audit, primarily by the Internal Revenue Service. The income tax returns for the tax year 2021 are on extension and have not yet been filed.

The Company did not have material unrecognized tax benefits as of June 30, 2022 and 2021 and does not expect this to change significantly over the next 12 months. The Company will recognize interest and penalties accrued on any unrecognized tax benefits as a component of the provision for income taxes.

Net Loss Per Share

Basic loss per share is calculated by dividing the loss attributable to stockholders by the weighted-average number of shares outstanding for the period. Diluted loss per share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock or resulted in the issuance of common stock that shared in the earnings (loss) of the Company. Diluted loss per share is computed by dividing the loss available to stockholders by the weighted average number of shares outstanding for the period and dilutive potential shares outstanding unless such dilutive potential shares would result in anti-dilution as is the situation for the nine months ending June 30, 2022. As of June 30, 2022, 16,423 options were outstanding of which 16,423 were exercisable, and 399,256,917 warrants were outstanding and exercisable. Additionally, as of June 30, 2022, the outstanding principal balance, including accrued interest of the third-party convertible debt, totaled \$8,264,967 and was convertible into 18,643,854,428 shares of common stock. The total potentially dilutive shares calculated is 19,043,127,768. It should be noted that contractually the limitations on the third-party notes (and the related warrant) limit the number of shares converted to either 4.99% or 9.99% of the then outstanding shares, which amounts to approximately 1,186,339,150 common shares, furthermore senior secured debt of \$7,965,640 is held by a court appointed receiver which may be prohibited from converting the debt to common stock. As of June 30, 2022, and 2021, potentially dilutive securities consisted of the following:

	June 30, 2022	June 30, 2021
Stock options	16,423	17,223
Warrants	399,256,917	17,614,776
Related party convertible debt and accrued interest	-	49,423,106
Third party convertible debt (including senior debt)	18,643,854,428	1,361,827,432
Total	19,043,127,767	1,428,882,537

Segment Reporting

The Company uses “the management approach” in determining reportable operating segments. The management approach considers the internal organization and reporting used by the Company’s chief operating decision maker for making operating decisions and assessing performance as the source for determining the Company’s reportable segments. The Company’s chief operating decision maker is the chief executive officer of the Company, who reviews operating results to make decisions about allocating resources and assessing performance for the entire Company. As of June 30, 2022, the Company did not report any segment information since the Company primarily generates sales from its subsidiary, Howco. Additionally, there are no formal cost allocations to Howco or the other subsidiaries. Furthermore no material sales have been recorded other than sales at Howco.

Recent Accounting Pronouncements

The amendments in the ASU remove certain separation models for convertible debt instruments and convertible preferred stock that require the separation of a convertible debt instrument into a debt component and an equity or derivative component. The ASU also amends the derivative scope exception guidance for contracts in an entity’s own equity. The amendments remove three settlement conditions that are required for equity contracts to qualify for the derivative scope exception.

In addition to the above, the ASU expands disclosure requirements for convertible instruments and simplifies areas of the guidance for diluted earnings-per-share calculations that are impacted by the amendments.

The ASU is effective for public business entities that meet the definition of a Securities and Exchange Commission (SEC) filer, excluding smaller reporting companies as defined by the SEC, for fiscal years beginning after December 15, 2021. Early adoption is permitted. The FASB noted that an entity should adopt the guidance as of the beginning of its annual fiscal year. The standard is effective for the Company beginning in fiscal year September 30, 2024.

Entities may elect to adopt the amendments through either a modified retrospective method of transition or a fully retrospective method of transition. If an entity has convertible instruments that include a down round feature, early adoption of the ASU is permitted for fiscal years beginning after December 15, 2020.

ASU 2016-13 Measurement of Credit Losses on Financial Instrument is effective for fiscal years beginning after December 15, 2022. This is not expected to apply to the Company.

In May 2021, the FASB issued ASU 2021-04, Earnings Per Share (Topic 260), Debt-Modifications and Extinguishments (Subtopic 470-50), Compensation-Stock Compensation (Topic 718), and Derivatives and Hedging-Contracts in Entity’s Own Equity (Subtopic 815-40). The new ASU addresses issuer’s accounting for certain modifications or exchanges of freestanding equity-classified written call options. This amendment is effective for all entities, for fiscal years beginning after December 15, 2021, including interim periods within those fiscal years. Early adoption is permitted. The Company is currently evaluating the impact this new guidance will have on its financial statements

The Company does not believe that any other recently issued but not yet effective accounting pronouncements, if adopted, would have a material effect on the accompanying consolidated financial statements.

NOTE 3 - ACCOUNTS RECEIVABLE

The Company’s accounts receivable at June 30, 2022 and September 30, 2021 is as follow:

	June 30, 2022	September 30, 2021
Accounts receivable	\$ 281,766	\$ 128,386
Reserve for doubtful accounts	-	-
	<u>\$ 281,766</u>	<u>\$ 128,386</u>

Bad debt expense was \$0 for the nine months ended June 30, 2022 and 2021.

NOTE 4 - INVENTORY

At June 30, 2022 and September 30, 2021, inventory consists of finished goods and was valued at \$103,053 and \$61,837, respectively. No inventory reserve was deemed necessary at June 30, 2022 or September 30, 2021.

NOTE 5 - INTANGIBLE ASSETS

The Company acquired a patent for a new product during the year ended September 30, 2021. The Company capitalized acquisition and related legal fees related to the patent totaling \$44,650. The capitalized amount will be amortized over the five fiscal years commencing upon first sale or related contract. Amortization for the nine months ended June 30, 2022 amounted to \$6,698, the net carrying value of the patent is \$37,952.

NOTE 6 - LINE OF CREDIT - BANK

The Company has a revolving line of credit with a financial institution, which balance is due on demand and principal payments are due monthly at 1/60th of the outstanding principal balance. This revolving line of credit is in the amount of \$50,000, and is personally guaranteed by the Company’s Chief Executive Officer (“CEO”). The line bears interest at a fluctuating rate equal to the prime rate plus 4.25%, which at June 30, 2022 and September 30, 2021 was 9.75% and 7.5%, respectively. As of June 30, 2022 and September 30, 2021, respectively, the balance of the line of credit was \$0 and \$4,885, with \$50,000, available at June 30, 2022.

NOTE 7 - SETTLEMENTS PAYABLE

On July 20, 2018, the Company entered into a settlement agreement with a collection agent for American Express relating to \$127,056 of past due charges. The agreement provides for initial payment of \$12,706, monthly payments of \$6,500 and final payment on January 27, 2020 of \$3,850. The amount due at June 30, 2022 and September 30 2021, was \$42,850, and \$42,850, respectively. Under the terms of the stipulation and settlement agreement, this debt is in default.

NOTE 8 - NOTE PAYABLE – SELLER

In connection with the acquisition of Howco in September 2016, the Company issued a note payable in the amount of \$900,000 to the sellers of Howco. The note matured on September 9, 2017 and bears interest at 5.50% per annum. The note requires payment of unpaid principal and interest upon maturity. The note is secured by all assets of Howco Distribution Co. and subordinated to the Senior Secured Credit Facility discussed below. The note is currently in default and the default interest rate is 8% per annum. At June 30, 2022 and September 30, 2021, the principal and accrued interest on this note amounted to \$846,000, \$392,302 and \$873,000, and \$340,663, respectively.

NOTE 9 - PROMISSORY NOTES PAYABLE – RELATED PARTY OFFICER AND HIS AFFILIATES

The related party officer and his affiliates convertible notes balance consisted of the following at June 30, 2022 and September 30, 2021:

	June 30, 2022	September 30, 2021
Principal	\$ 48,255	\$ -
Premiums	-	-
Total	48,255	-
Current portion, including premiums	(48,255)	-
Long term	\$ -	\$ -

Notes Payable

On January 25, 2022 a promissory note was issued to the CEO by Howco for \$75,000 having weekly payments of \$3,870 for twenty-five weeks, which include a total of \$21,750 of interest. The principal at June 30, 2022 was \$0 and interest of \$18,945, was charged to interest expense. The note was repaid early therefore the interest charged was less than under the pre-amendment agreement.

On April 25, 2022 a promissory note was issued to the CEO by Howco for \$50,000 having weekly payments of \$1,570 for fifty weeks, which include a total of \$28,500 of interest. The principal at June 30, 2022 was \$48,255 and interest of \$6,564, was charged to interest expense.

NOTE 10 - CONVERTIBLE NOTES PAYABLE AND ADVISORY FEE LIABILITIES

The senior secured credit facility note balance and convertible debt balances consisted of the following at June 30, 2022 and September 30, 2021:

	June 30, 2022	September 30, 2021
Principal	\$ 5,997,641	\$ 6,167,407
Premiums	1,437,375	1,509,673
Unamortized discounts	(2,002)	(14,440)
	\$ 7,433,014	\$ 7,662,640

For the nine months ended June 30, 2022 and 2021, amortization of debt discount on the above convertible notes amounted to \$19,937 and \$21,423, respectively.

Senior Secured Credit Facility Note - Default

On September 13, 2016, the Company entered into a senior secured credit facility note with an investment fund for the acquisition of Howco. The Company can borrow up to \$6,500,000, subject to lender approval, with an initial convertible promissory note at closing of \$3,500,000 (the “Note”). The Note bears interest at a rate of 18% per annum, required monthly payments of \$52,500, which is interest only, starting on October 13, 2016 through February 13, 2017, and monthly payments, including interest and principal, of \$298,341 starting on March 13, 2017 through maturity on March 13, 2018. In the event of default, the Note balance will bear interest at 25% per annum. In connection with this Agreement, the Company was obligated to pay additional advisory fees of \$850,000 payable in the form of cash or common stock in accordance with the terms of the Agreement. The Company was also required to reserve 7,000 shares of common stock related to this transaction. The reserved shares will be released upon the satisfaction of the loan.

As of June 30, 2022, and September 30, 2021, the Company had issued 539, shares of common stock in satisfaction of the \$850,000 advisory fee in accordance with the terms of the agreement, such shares being issued in September 2016. The proceeds from the sale of the 539, shares were to be applied to the \$850,000 advisory fee due. Based upon the value of the shares, at the time the lender sells the shares, the Company may be required to redeem unsold shares for the difference between the \$850,000 and the lender’s sales proceeds. Accordingly, the \$850,000 was reflected as a current liability through December 31, 2017. In January 2018, in connection with a settlement agreement (see below), the accrued advisory fee was reclassified to the principal balance of the replacement Convertible Note. Through the date of the settlement agreement and through June 30, 2022 and September 30, 2021, the lender had not reported any proceeds from the sale of these shares (see below). Prior to the settlement agreement in January 2018, notwithstanding anything contained in the Agreement to the contrary, in the event the Lender has not realized net proceeds from the sale of Advisory Fee Shares equal to at least the Advisory Fee by the earlier to occur of: (A) September 13, 2017; (B) the occurrence of an Event of Default; or (C) the Maturity Date, then at any time thereafter, the Lender shall have the right, upon written notice to the Borrower, to require that the Borrower redeem all Advisory Fee Shares then in Lender’s possession for cash equal to the Advisory Fee, less any cash proceeds received by the Lender from any previous sales of Advisory Fee Shares, if any within five (5) Business Days from the date the Lender delivers such redemption notice to the Borrower.

The Note is only convertible upon default or mutual agreement by both parties at a conversion rate of 85% of the lowest of the daily volume weighted average price of the Company’s common stock during the 5 business days immediately prior to the conversion date. At any time and from time to time while this Note is outstanding, but only upon: (i) the occurrence of an Event of Default under any of the Loan Documents; or (ii) mutual agreement between the Company and the Holder, this Note may be, at the sole option of the Holder, convertible into shares of the Company’s common stock, in accordance with the terms and conditions of the Note. Upon liquidation by the Holder of Conversion Shares issued pursuant to a conversion notice, provided that the Holder realizes a net amount from such liquidation equal to less than the conversion amount specified in the relevant conversion notice, the Company shall issue to the Holder additional shares of the Company’s common stock equal to: (i) the Conversion Amount specified in the relevant conversion notice; *minus* (ii) the realized amount, as evidenced by a reconciliation statement from the Holder (a “Sale Reconciliation”) showing the realized amount from the sale of the Conversion Shares; *divided by* (iii) the average volume weighted average price of the Company’s common stock during the five business days immediately prior to the date upon which the Holder delivers notice (the “Make-Whole Notice”) to the Company that such additional shares are requested by the Holder.

Once a default occurs, the Note and the \$850,000 advisory fee payable will be accounted for as stock settled debt at its fixed monetary value. On March 13, 2017 the Company defaulted on the monthly principal and interest payment of \$298,341. Due to this default, as of June 30, 2017, the Company has accounted for the embedded conversion option as stock settled debt and recorded a debt premium of \$617,647 with a charge to interest expense, and the interest rate increased to 25% (default rate).

On March 28, 2017, the Company entered into an additional agreement with the above senior secured credit facility lender to provide a range of advisory services for a total of \$1,200,000 with no definitive terms or length of service which was expensed in fiscal 2017 and had been recorded as an accrued liability – advisory fees through December 31, 2017. In connection with the settlement agreement discussed below, in January 2018, the advisory services fees payable were reclassified to the principal balance of the replacement Convertible Note.

On January 3, 2018, the Company entered into a settlement agreement (the “Settlement Agreement”) and replacement note agreements with the investment fund related to a senior secured credit facility note dated September 13, 2016. On the effective date of the Settlement Agreement, all amounts owed to the investment fund aggregated \$5,788,642 and consisted of a convertible promissory note of \$3,500,000, accrued interest payable of \$238,642, and accrued advisory fees payable of \$2,050,000. On the effective date of the Settlement Agreement, the amount due of \$5,788,642 was split and apportioned into two separate replacement notes (“Replacement Note A” and Note B”). Replacement Note A had a principal amount of \$1,000,000 and Replacement Note B had a principal balance of \$4,788,642, both of which remained secured by the original security, pledge and guarantee agreements; and other applicable loan documents, and bear interest at 18% per annum. The default was not waived by this settlement agreement. The Company originally recorded a premium on stock settled debt of \$617,647 on the \$3,500,000, and subsequent to the settlement agreement recorded an additional premium on stock settled debt of \$403,878 on the additional \$2,288,642 for accrued interest and advisory fees payable that were capitalized as note principal. The interest rate was amended to 12% effective June 12, 2018.

The Credit Agreement was amended such that the maturity date was extended to January 13, 2019 (the “Extended Maturity Date”) for replacement Note B, while the Note A maturity date remained at March 13, 2018 but was due as of March 2017 due to the principal and interest payment default discussed above. Notwithstanding anything contained in this Agreement to the contrary, all obligations owing by the Company and all other Credit Parties under the Credit Agreement, First Replacement Note B, and all other Loan Documents shall be paid in full by the Extended Maturity Date as follows: \$52,500 per month from January 13, 2018 to December 13, 2018 and the remaining principal and accrued interest on January 13, 2019. Interest payments made since the amendment have totaled \$323,440 and are therefore not in accord with that amendment. However, TCA has received payments under the 3(a) (10) settlement (below) totaling \$308,100 during the year ended September 30, 2018, and another \$270,320, during the year ended September 30, 2019. The principal balance was \$4,788,642 at September 30, 2018.

BANTEC, INC. AND SUBSIDIARIES
CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

On October 30, 2018, TCA the Company’s senior lender amended its credit facility which had been restructured in January 2018 when fees for advisory and other matters along with accrued but unpaid interest were capitalized and separated into two notes, Note A having \$1,000,000 principal and Note B having \$4,788,642 both having the same maturity terms, interest rates and conversion rights. Under the current amendment total amounts outstanding under the notes along with accrued interest of \$537,643 has been capitalized with the principal amount due of \$6,018,192, \$5,326,285 for Note B and \$691,907 for Note A. The restated note has the same conversion price discount and therefore continues to be stock settled debt under ASC 480, an additional \$94,878 was charged to interest with a credit to debt premium. The restated note accrues interest on the principal balance at 12% per annum, includes amortization to the new maturity date of December 15, 2020. The amortization payments credited toward the principal amount and accrued interest vary and include payments made under the 3(a)(10) settlement agreement with a third party related to Note A. Economically the total principal and accrued interest outstanding remain unchanged as reported in the consolidated balance sheet. All other terms including conversion rights and a make-whole provision in the case of a conversion shortfall remain the same as stated in the footnotes above.

On September 6, 2019, the Company received a default notice on its payment obligations under the senior secured credit facility agreement from TCA. The Company has proposed a number of solutions including refinancing the debt with other parties. The default was declared due to non-payment of monthly scheduled amortization (principal and interest). TCA holds security interests in all assets of the Company including its subsidiary Howco. The Company is in negotiation with the receiver appointed by the court related to the senior secured creditor’s claim and has proposed a preliminary settlement.

At June 30, 2022 and September 30, 2021, the principal of the Note B portion was \$5,326,285 and accrued interest was \$2,217,769 and \$1,738,403 respectively and the Note A principal subject to the 3(a) (10) court order was \$421,587. During the nine months ended June 30, 2022, the Company has not paid interest or principal and Livingston Asset Management (under the 3(a) (10) settlement) has not made any payments to TCA.

On January 30, 2018 pursuant to the Liability Purchase Term Sheet, the TCA Replacement Note A in the principal amount of \$1,000,000 was acquired by Livingston Asset Management LLC (“Livingston”) from the original lender. Principal of Replacement Note A is due to Livingston with all then accrued but unpaid interest due to the original lender. In accordance with the terms of the Settlement Agreement, the Court was advised of the Company’s intention to rely upon the exception to registration set forth in Section 3(a) (10) of the Securities Act to support the issuance of its common shares and the Court held a fairness hearing regarding the issuance on March 12, 2018. Following entry of an Order by the Court which occurred on March 12, 2018, in settlement of the claims, the Company shall issue and deliver to Livingston shares of its common stock (the “Settlement Shares”) in one or more tranches as necessary, and subject to adjustment and ownership limitations as set forth in the Settlement Agreement, sufficient to generate proceeds such that the aggregate Remittance Amount equals the Claim Amount. The Company will issue free trading shares of its common stock under section 3(a) (10) of the Securities Act to Livingston in the amount of such judgment in a series of tranches so that Livingston will not own more than 9.99% of the Company’s outstanding shares per tranche. The parties reasonably estimate that the fair market value of the Settlement Shares to be received by Livingston is equal to approximately \$1,666,667 which is based on a discount of 40%.

In the nine months ended June 30, 2022, there were no 3(a) (10) issuances. As of June 30, 2022, there have been seventeen issuances under section 3(a) (10) of the Securities Act totaling 1,374,885 shares; 1,273,261, in 2019, and 101,624, in 2018, which have been recorded at par value with an equal charge to additional paid-in capital. On November 17, 2019, 194,520 of the shares issued under the 3(a) (10) were cancelled at the request of Livingston. The value originally recorded as a liability remains in the convertible note balance, until these shares have been sold and reported to the Company by the lender as part of the Make-Whole provision at which time the proceeds value of such shares are reclassified to additional paid-in capital. During the years ended September 30, 2018 and September 30, 2019, proceeds of \$308,100 and \$270,320, respectively were remitted to TCA by Livingston and applied to reduce the liability with corresponding credits to additional paid in capital. \$180,618 of debt premium was credited to additional paid in capital in conjunction with the payments to TCA. At June 30, 2022 and September 30, 2021, the balance, of \$421,587 along with related debt premium of \$281,054 are included in convertible notes payable on the balance sheet.

On March 7, 2018 the Company entered into a placement agent and advisory agreement with Scottsdale Capital Advisors in connection with the Livingston liability purchase term sheet executed on November 15, 2017. The placement agent services fee amounted to \$15,000 payable to Scottsdale Capital Advisors in the form of a convertible note. The note matures six months from the date of issuance and shall accrue interest at the rate of 10% per annum. The \$15,000 note is convertible into shares of the Company’s common stock at a discount of 30% of the low closing bid price for the twenty trading days prior to the conversion and is not subject to any registration rights. The Company has accounted for the convertible promissory note as stock settled debt under ASC 480 and recorded a debt premium of \$6,429 with a charge to interest expense. The note has not been converted and the principal balance is \$15,000, at June 30, 2022 and September 30, 2021 with \$7,395, and \$6,273, of accrued interest, respectively. As the note has matured it is technically in default. Under the terms of the note no default interest or penalties accrue.

Other Convertible Debt

On June 1, 2018, the Company entered into a consulting and services arrangement with Livingston Asset Management which has no stipulated term. The arrangement provides for financial management services including accounting and related periodic reporting among other advisory services. Under the agreement the Company will issue to Livingston Asset Management Convertible Fee Notes having principal of \$12,500, interest of 10% per annum, maturity of six or seven months. On November 9, 2017, the Company received a first tranche payment of \$75,500 under the terms of a Securities Purchase Agreement dated October 25, 2017, with Crown Bridge Partners, LLC ("Crown Bridge") under which the Company issued to Crown Bridge a convertible note in the principal amount of \$105,000 and a five-year warrant to purchase 100, shares of the Company's common stock at an exercise price of \$350, as a commitment fee which is equal to the product of one-third of the face value of each tranche divided by \$350. Under the terms of the note Crown Bridge was to receive "right of first refusal" for any subsequent loans or notes to fund the Company. The Company violated this covenant when funding was received from other sources without offering Crown Bridge the opportunity to participate. On December 20, 2017 the Company cured this covenant violation by issuing 200 additional warrants which have the same exercise price and terms of the original warrants. The warrants have full ratchet price protection and cashless exercise rights.

The convertible note (the "Note") issued to Crown Bridge in the principal amount of \$105,000, has an original issue discount of \$10,500 and issue costs of \$19,000 both of which are recorded as debt discount along with the warrant relative fair value of \$12,507 for the original 100, warrants and \$31,529 for the penalty warrants to be amortized over the twelve month term of this tranche, bears interest of 10% (12% default rate) per annum, and has a maturity date of 12 months from the date of each tranche of payments under the Note with future tranches being at the discretion of Crown Bridge. The conversion rate for any conversion of unpaid principal and interest under the Notes is at a 35% discount to the lowest market price of the shares of the Company's common stock within a 20 day trading period prior to the date of conversion to which an additional 10% discount will be added if the conversion price of the Company's common stock is less than \$50, per share and no shares of the Company's common stock can be issued to the extent Crown Bridge would own more than 4.99% of the outstanding shares of the Company's common stock and the conversion shares contain piggy-back registration rights. The Note is subject to customary default provisions including an event of default if the bid price of the Company's common stock is less than its par value of \$.0001 per share. The Company is entitled to prepay the Note between 30 days after its issuance until 180 days from its issuance at amounts that increase from 112% of the prepayment amount to 137% of the prepayment amount depending on the length of time when prepayments are made. The Company has accounted for the convertible promissory note as stock settled debt under ASC 480 and recorded a debt premium of \$56,538 with a charge to interest expense. As of September 30, 2018 the note holder fully converted principal and accrued interest into common shares. The debt premium on stock settled debt was fully recognized as additional paid in capital.

Stock Options

The Company recognizes compensation cost for invested stock-based incentive awards on a straight-line basis over the requisite service period.

There were no options granted under the 2016 Stock Incentive Plan for the nine months ended June 30, 2022.

For the nine months ended June 30, 2022 and 2021, the Company recorded \$69,108 and \$108,651 of compensation and consulting expense related to stock options, respectively. Total unrecognized compensation and consulting expense related to invested stock options at June 30, 2022 amounted to \$0. The weighted average period over which share-based compensation expense related to these options will be recognized is less than one month.

For the nine months ended June 30, 2022 and the year ended September 30, 2021, a summary of the Company's stock options activity is as follows:

**Weighted-
Average**

	Number of Options	Weighted- Average Exercise Price	Remaining Contractual Term (Years)	Aggregate Intrinsic Value

Warrants

On November 9, 2017, the Company received a first tranche payment of \$75,500 under the terms of a Securities Purchase Agreement dated October 25, 2017, with Crown Bridge under which the Company issued to Crown Bridge a convertible note in the principal amount of \$105,000 and a five-year warrant to purchase 100 shares of the Company's common stock at an exercise price of \$350 as a commitment fee which is equal to the product of one-third of the face value of each tranche divided by \$0.35. On December 20, 2017 an additional 200 warrants were issued as a penalty and in order to entice Crown Bridge to waive its right of first refusal to provide additional financing under the terms of their convertible note. A debt discount of \$44,036 was recorded for the relative fair market value of the total 300 warrants and amortized to interest expense as of September 30, 2018. The warrants have full ratchet price protection and cashless exercise rights (See Note 10). The warrant includes an anti-dilution clause that was triggered on June 4, 2018. On June 4, 2018 an unrelated convertible note holder became entitled to convert their note into common shares at a 60% discount to the stock's market price. The anti-dilution provision trigger in the warrant agreement entitled Crown Bridge to exercise its warrants under a formula that increased the number of common shares to 31,250 at a price of \$3.60 per share. Due to the fact that the number of shares and exercise price can change due to market changes in the price of the common stock the Company has concluded to treat the warrants as derivatives and to revalue that derivative at each reporting date. Therefore a derivative liability of \$261,484 with a charge to additional paid in capital was recorded on June 4, 2018. As of June 30, 2022, the warrant was revalued and the warrant holder is entitled to exercise its warrants for 399,256,917 common shares and the related derivative liability is \$134,403.

For the nine months ended June 30, 2022 and year ended 2021, a summary of the Company's warrant activity is as follows:

	Number of Warrants	Weighted- Average Exercise Price	Weighted- Average Remaining Contractual Term (Years)	Aggregate Intrinsic Value
Outstanding and exercisable at September 30, 2021	42,777,527	\$ 0.00112	1.11	\$ 93,255

NOTE 13 - DEFINED CONTRIBUTION PLANS

In August 2016, Bantec established a qualified 401(k) plan with a discretionary employer matching provision. All employees who are at least twenty-one years of age and no minimum service requirement are eligible to participate in the plan. The plan allows participants to defer up to 90% of their annual compensation, up to statutory limits. Employer contributions charged to operations for the nine months ended June 30, 2022 and 2021, was \$0 and \$0, respectively.

The Company's subsidiary, Howco, is the sponsor of a qualified 401(k) plan with a safe harbor provision. All employees are eligible to enter the plan within one year of the commencement of employment. Employer contributions charged to expense for the nine months ended June 30, 2022 and 2021, was \$4,502 and \$6,540, respectively.

NOTE 14 - RELATED PARTY TRANSACTIONS

On October 1, 2016, the Company entered into employment agreements with two of its officers. The employment agreement with the Company's President and CEO provides for annual base compensation of \$370,000 for a period of three years, which can, at the Company's election, be paid in cash or Common Stock or deferred if insufficient cash is available, and provides for other benefits, including a discretionary bonus and equity provision for the equivalent of 12 months' base salary, and an additional one-time severance payment of \$2,500,000 upon termination under certain circumstances, as defined in the agreement. On September 16, 2019, this employment agreement was modified to provide an annual salary of \$624,000. The Company recognized expenses of \$468,000 for the nine months ended June 30, 2022 and 2021 for the CEO's base compensation.

On January 25, 2022 a promissory note was issued to the CEO by Howco for \$75,000 having weekly payments of \$3,870 for twenty-five weeks, which include a total of \$21,750 of interest. On May 6, 2022, President and CEO, Michael Bannon (personal capacity) and Howco amended his January 25, 2022 note to extend the terms. Upon amendment the principal balance was restated to be \$50,310, having 46 weekly payments of \$1,680. The principal was full paid at June 30, 2022 and interest of \$18,945, was changed to interest expense.

On April 25, 2022 a promissory note was issued to the CEO by Howco for \$50,000 having weekly payments of \$1,570 for fifty weeks, which include a total of \$17,500 of interest. The principal was \$48,255 at June 30, 2022 and interest of \$6,564, was changed to interest expense.

NOTE 15 - COMMITMENTS AND CONTINGENCIES

On February 6, 2018 the Company sent a letter to the previous owners of Howco Distributing Co. (“Howco”) alleging that they made certain financial misrepresentations under the terms of the Stock Purchase Agreement by which the Company acquired control of Howco during 2016. The Company claimed that the previous owners took excessive amounts of cash from the business prior to the close of the merger. On March 13, 2018 the Company filed a lawsuit against the previous owners by issuing a summons. On April 12, 2018, the Company received the Defendants’ answer. On July 22, 2019, the Company sought and was granted a dismissal without prejudice of the lawsuit filed against the previous owners of Howco. The Company and the previous owners are in discussion to settle the matter as of June 30, 2022. An informal oral agreement with the Seller has been made whereby the Company has been paying the previous owners \$3,000 per month since January 2021 in satisfaction of Seller’s note payable.

In connection with the merger in fiscal 2016, with Texas Wyoming Drilling, Inc., a vendor has a claim for unpaid bills of approximately \$75,000 against the Company. The Company and its legal counsel believe the Company is not liable for the claim pursuant to its indemnification clause in the merger agreement.

In the suit Drone USA, Inc and Michael Bannon (plaintiffs) vs the former Chief Financial Officer (CFO), currently pending in New York State court, the plaintiffs seek to compel the former CFO to meet his obligations under an agreement guaranteeing payments to another former executive. The former CFO filed a cross-claim against the plaintiffs for past due salary. The employment agreement with the former CFO allowed salary payments to be paid in cash or stock. During the year ended September 30, 2021, the Company issued 36,821,330 shares of its common stock for the past due salary and claims that this payment moots the former CFO’s claim for past due salary. The former CFO filed a motion for summary judgement which was denied by the district court, then filed an appeal. We are currently waiting for the appellate court’s decision.

On April 10, 2019, a former service provider filed a complaint with three charges with the Superior Court Judicial District of New Haven, CT seeking payment for professional services. The Company has previously recognized expenses of \$218,637, which remain unpaid in accounts payable. The Company has retained an attorney who is currently working to address the complaint. On August 9, 2019 the Company filed a motion to dismiss the charge of unjust enrichment. The judge granted the Company’s motion to dismiss. The Company, through its attorney, is working to negotiate a settlement. A pre-trial conference is scheduled for November 30, 2022. The trial date is scheduled for December 14, 2022.

During the year ended September 30, 2019, two vendors (The Equity Group and Toppan Vintage) have asserted claims for past due amounts of approximately \$59,000, arising from services provided. The Company has fully recognized in accounts payable the amounts associated with these claims and expects to resolve the matters to satisfaction of all parties.

On December 30, 2020, a Howco vendor filed a lawsuit seeking payment of past due invoices totaling \$276,430 and finance charges of \$40,212. The Company has recorded the liability for the invoices in the normal course of business. With this vendor and others, we have entered into monthly payment arrangements.

The Impact of COVID-19

The Company is a wholesale vendor to the Department of Defense through its wholly owned subsidiary Howco’s business has been affected due to the COVID-19 social distancing requirements mandated by the federal, state and local governments where the Company’s operations occur. For some businesses, like the Company’s, core business cannot always be done through “virtual” means, and even when this is possible, it requires significant capital and time to achieve. During the nine months ended June 30, 2022 sales and shipments at Howco have continued at a lower rate than during the nine months ended June 30, 2021. It is expected that COVID-19 restrictions had an impact on the Company’s operations during the nine months ended June 30, 2022, however the Company cannot assess the financial impact of the related COVID-19 restrictions as compared to other economic and business factors.

Settlements

On January 29, 2018, the Company entered into a settlement agreement and mutual release with a vendor who had provided public relations and other consulting services whereby the Company shall pay to this vendor an aggregate amount of \$60,000 of which \$30,000 was paid on February 2, 2018. The Company was to have paid ten monthly payments of \$3,000 per month beginning on February 29, 2018. The vendor is to return 400 common shares of the Company’s common stock which will be cancelled upon satisfaction of the liability. The liability is recorded at \$21,000 as of June 30, 2022 and September 30, 2021. The Company is in discussion with the vendor to address the past due amounts.

On November 13, 2018 the Company and a vendor agreed to settle \$161,700 in past due professional fees for a convertible note in the amount of \$90,000. The note bears interest at 5% and matures in July 2019, and has a fixed discount conversion feature. The note is now past due and remains unconverted at June 30, 2022; however there is no default interest or penalty associated with the default. The difference between the settlement amount and the recorded amount in accounts payable of \$71,700 was recognized as a gain on debt extinguishment upon receipt of the waiver and release from the vendor.

As of June 30, 2022, the Company has received demand for payment of past due amounts for services by several consultants and service providers.

Commitments

Lease Obligations

The Company entered into an agreement with a manufacturer in Pismo Beach, California. The agreement provides for certain services to be provided by the manufacturer as needed by the Company. The agreement has an initial term of three years with one year renewals. In connection with this agreement, the Company has agreed to sublease space based in San Luis Obispo, California from the manufacturer for the purposes of the development and manufacturing of unmanned aerial vehicles. The lease provides for base monthly rent of approximately \$15,000 for the initial term to be increased to \$16,500 per month upon extension. The lease term begins February 1, 2017 and expires January 31, 2019 with the option to extend the term an additional 24 months. However, the Company never took possession of the premises and in July 2017, the Company made a decision to not take possession of the premises. The Company is in default of the rent payments and had received oral demand for payments. As of June 30, 2022, the Company has not made any of the required monthly rent payments in connection with this agreement. During fiscal 2017, the Company had expensed and accrued into accounts payable the remaining amounts due under the term of the lease for a total accrual of \$360,000 pursuant to ASC 420-10-30. This balance remains accrued as of June 30, 2022 and September 30, 2021.

On April 16, 2020 the Company’s subsidiary Howco renewed its office and warehouse lease in Vancouver, WA for a term commencing on June 1, 2020 extending through June 1, 2023 at an initial monthly rent of approximately \$5,154. The lease requires monthly payments including base rent plus CAM with annual increases.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Cautionary Note Regarding Forward-Looking Information and Factors That May Affect Future Results

This quarterly report on Form 10-Q contains forward-looking statements regarding our business, financial condition, results of operations and prospects. The Securities and Exchange Commission (the "SEC") encourages companies to disclose forward-looking information so that investors can better understand a company's future prospects and make informed investment decisions. This quarterly report on Form 10-Q and other written and oral statements that we make from time to time contain such forward-looking statements that set out anticipated results based on management's plans and assumptions regarding future events or performance. We have tried, wherever possible, to identify such statements by using words such as "anticipate," "estimate," "expect," "project," "intend," "plan," "believe," "will" and similar expressions in connection with any discussion of future operating or financial performance. In particular, these include statements relating to future actions, future performance or results of current and anticipated sales efforts, expenses, the outcome of contingencies, such as legal proceedings, and financial results. Factors that could cause our actual results of operations and financial condition to differ materially are set forth in the "Risk Factors" section of our annual report on Form 10-K for the fiscal year ended September 30, 2021 as filed with the SEC on January 7, 2022.

We caution that these factors could cause our actual results of operations and financial condition to differ materially from those expressed in any forward-

looking statement to make and investors should not place undue reliance on any such forward-looking statement. Further, any forward-looking statement speaks only as of the date on which such statement is made, and we undertake no obligation to update any forward-looking statement to reflect events or circumstances after the date on which such statement is made or to reflect the occurrence of anticipated or unanticipated events or circumstances. New factors emerge from time to time, and it is not possible for us to predict all of such factors. Further, we cannot assess the impact of each such factor on our results of operations or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

The following discussion should be read in conjunction with our condensed consolidated financial statements and the related notes that appear elsewhere in this quarterly report on Form 10-Q.

Overview

Bantec, Inc. is a distributor, construction, environmental and drone company. Through Howco Distributing Co, Bantec provides product procurement, distribution, and logistics services, to the United States Department of Defense and Defense Logistics Agency. The Company established Bantec Sanitizing in fiscal 2021, which offers sanitizing products and equipment through its new store bantec.store. Bantec Sanitizing is currently offering Bantec Sanitizing franchises for sale. The Company has operations based in Little Falls, New Jersey and Vancouver, Washington. The Company continues to seek strategic acquisitions and partnerships with distributor, construction, environmental and drone firms that offer growth opportunities in well established markets, as well as acquisitions and partnerships with firms that have complementary technologies, services, products and infrastructure.

Liquidity and Capital Resources

As of June 30, 2022 we had \$632,608 in current assets, including \$243,126 in cash, compared to \$1,205,058 in current assets, including \$985,953 in cash, at September 30, 2021. Current liabilities at June 30, 2022, totaled \$16,296,493 compared to \$15,914,650, at September 30, 2021. The decrease in current assets from September 30, 2021 to June 30, 2022 is primarily due to decreases in: cash of \$742,827, and prepaid expenses \$24,219, partially offset by increases of approximately \$153,000 and \$41,000 in accounts receivable and inventory, respectively. The increase in current liabilities from September 30, 2021 to June 30, 2022, of approximately \$382,000, is primarily due to the increases in accrued expenses of approximately \$740,000. While we have revenues from UAV sales as of this date, no significant UAV revenues are anticipated until we have implemented our full plan of operations, specifically, initiating sales campaigns for our UAV internet and social media platforms. We must raise cash to implement our strategy to grow and expand per our business plan. We anticipate over the next 12 months the cost of being a reporting public company will be approximately \$250,000.

We are currently issuing shares under the S-1 offering but expect to raise additional proceeds with debt securities, and/or more loans, however if sufficient funding is not available, we would be required to cease business operations. As a result, investors would lose all of their investment. Under the terms of our credit agreement with TCA, all potential new investments must first be reviewed and approved by TCA, which may constrain our options for new fundraising. However, we have been in contact with the receiver for the TCA management companies and funds and do not expect any such objections over investment opportunities. We are currently in discussion to undertake a second S1 offering.

We anticipate our short-term liquidity needs to be approximately \$5,000,000 which will be used to satisfy certain of our existing current liabilities and we expect gross profits of approximately \$500,000. To meet these needs, we intend to complete our equity financing and refinance or restructure certain existing liabilities. Once this is completed, and we implement our sales and marketing plan to sell UAV products, we anticipate minimal long-term liquidity needs which we expect to meet through equity financing or short-term borrowings.

Additionally, we will have to meet all the financial disclosure and reporting requirements associated with being a publicly reporting company. Our management will have to spend additional time on policies and procedures to make sure it is compliant with various regulatory requirements, especially that of Section 404 of the Sarbanes-Oxley Act of 2002. This additional corporate governance time required of management could limit the amount of time management has to implement the business plan and may impede the speed of its operations.

The Impact of COVID-19

The Company is a wholesale vendor to the Department of Defense through its wholly owned subsidiary Howco's business has been affected due to the COVID-19 social distancing requirements mandated by the federal, state and local governments where the Company's operations occur. For some businesses, like the Company's, core business cannot always be done through "virtual" means, and even when this is possible, it requires significant capital and time to achieve. During the nine months ended June 30, 2022 sales and shipments at Howco have continued at a lower rate than during the nine months ended June 30, 2021. It is expected that COVID-19 restrictions had an impact on the Company's operations during the nine months ended June 30, 2022, however the Company cannot assess the financial impact of the related COVID-19 restrictions as compared to other economic and business factors.

The following is a summary of the Company's cash flows provided by (used in) operating, investing and financing activities:

	Nine Months Ended June 30, 2022	Nine Months Ended June 30, 2021
Net Cash Provided by (Used in) Operating Activities	\$ (1,240,506)	\$ (911,075)
Net Cash Used in Investing	-	-
Net Cash Provided by (Used in) Financing Activities	\$ 497,679	\$ 871,956
Net Increase (Decrease) in Cash	\$ (742,827)	\$ (39,119)

2022, Net cash used in operating activities of \$1,240,506, is largely the result of net losses of \$2,032,933, partially offset by non-cash charges for premiums on stock settled debt, debt discount amortization, non-cash charges for services and increases to accrued expenses (interest).

2022, Cash provided by financing activities of \$497,679 is largely the result of stock sales for cash of \$699,589 and cash received from issuance of convertible notes totaling \$101,250, somewhat offset by repayments of various debts including bank loan and other financing arrangements at Howco.

Results of Operations

Three months Ended June 30, 2022 and 2021

We generated sales of \$750,756 and \$622,423 for the three months ended June 30, 2022 and 2021, respectively, an increase of approximately \$128,000, or 21%. For the three months ended June 30, 2022 and 2021, we reported cost of goods sold of \$629,023 and \$494,107, respectively, an increase of approximately \$135,000, or 27%. The increase in sales and cost of goods sold for the 2022 period as compared to the 2021 period is due to higher sales in current period due to increased Department of Defense spending and lessening COVID 19 restrictions. While management's focus on increasing gross margins has impacted sales levels, we believe that the Company is situated to capture greater sales without incurring significant fixed costs through three initiatives. Gross margins were 16% and 21% for the three months ended June 30, 2022 and 2021, respectively. Gross margin contractions were due to increased direct sales as packaging services have decreased.

Efforts are underway to market an expanded suite of Howco product lines on the east coast. We are expanding product offerings with high tech tactical gear to regular federal government entities (Howco lines of business), adding the high-tech tactical gear to our traditional drone assemblies along with newer more rapidly deployed drones focused on municipalities and lastly, we are adding construction contracting and sanitizing services.

For the three months ended June 30, 2022 and 2021, we reported selling, general, and administrative expenses of \$470,612 as compared to \$790,539, a decrease of approximately \$320,000, or 40%. For the three months ended June 30, 2022 and 2021, selling, general, and administrative expenses consisted of the following:

	For the Three Months ended June 30, 2022	For the Three Months ended June 30, 2021
Compensation and related benefits	\$ 259,605	\$ 384,580
Professional fees	159,336	291,081
Other selling, general and administrative expenses	51,671	114,878
Total selling, general and administrative expenses	<u>\$ 470,612</u>	<u>\$ 790,539</u>

The decrease in selling, general, and administrative costs for the 2022 period as compared to the 2021 period was due to the decrease in compensation, professional fees and in other selling, general and administrative costs stemming from lower levels of management and staff at Howco and general decreased operations (also at Howco).

For the three months ended June 30, 2022 and 2021, depreciation expense amounted to \$0 and \$2,458, respectively, and related to the depreciation of demonstration drones in the 2021 period. The demonstration drones were fully depreciated as of September 30, 2021.

Amortization expense for intangibles was \$6,698 for the three months ended June 30, 2022, as the Company began amortization during the current quarter.

For the three months ended June 30, 2022 and 2021, other income (expense) amounted to (\$101,680) and (\$299,001), respectively, a decrease of approximately \$197,000. The decrease was attributable gains on debt extinguishment of \$159,846 and decrease in interest expense of approximately \$78,000 during the current period compared to three months ended June 30, 2021. This was offset by and increase in fair market value of derivatives charge of approximately \$40,000.

As a result, we reported net losses of \$457,257, or \$0.00 per common share, and \$963,682, or \$0.00 per common share, for the three months ended June 30, 2022 and 2021, respectively.

Nine months Ended June 30, 2022 and 2021

We generated sales of \$1,522,781 and \$2,034,327 for the nine months ended June 30, 2022 and 2021, respectively, a decrease of approximately \$512,000, or 25%. For the nine months ended June 30, 2022 and 2021, we reported cost of goods sold of \$1,258,376 and \$1,229,348, respectively, an increase of approximately \$29,000, or 2%. The increase in sales is largely due to increased Department of Defense spending and lessening of the COVID 19 restrictions. The increase in cost of goods sold for the 2022 period as compared to the 2021 period is due to higher direct sales, and lower sales of packaging services. While management's focus on increasing gross margins has impacted sales levels, we believe that the Company is situated to recapture sales without incurring significant fixed costs through three initiatives. Gross margins were 17% and 40% for the nine months ended June 30, 2022 and 2021, respectively. Efforts are underway to market an expanded suite of Howco product lines on the east coast. We are expanding product offerings with high tech tactical gear to regular federal government entities (Howco lines of business), adding the high tech tactical gear to our traditional drone assemblies along with newer more rapidly deployed drones focused on municipalities and lastly we are adding construction contracting.

For the nine months ended June 30, 2022 and 2021, we reported selling, general, and administrative expenses of \$1,672,437 as compared to \$2,277,418, a decrease of approximately \$605,000, or 27%. For the nine months ended June 30, 2022 and 2021, selling, general, and administrative expenses consisted of the following:

	For the Nine Months ended June 30, 2022	For the Nine Months ended June 30, 2021
Compensation and related benefits	\$ 900,026	\$ 1,301,925
Professional fees	618,879	726,986
Other selling, general and administrative expenses	153,532	248,507
Total selling, general and administrative expenses	<u>\$ 1,672,437</u>	<u>\$ 2,277,418</u>

The decrease in selling, general, and administrative costs for the 2022 period as compared to the 2021 period was due to decreases: in compensation of approximately 31% professional fees of 15% and other selling, general and administrative expenses of approximately 38%.

For the nine months ended June 30, 2022 and 2021, depreciation expense amounted to \$0 and \$7,374, respectively, and related to the depreciation of demonstration drones in the 2021 period. The demonstration drones were fully depreciated as of September 30, 2021.

Amortization expense for intangibles was \$6,698 for the nine months ended June 30, 2022, as the Company began amortization during the current period.

For the nine months ended June 30 2022 and 2021, other income (expense) amounted to (\$618,203), and \$326,691, respectively, a change of approximately \$945,000. The increase to other loss was attributable to gains recognized on debt and other liability extinguishment of approximately \$1,366,000 in the prior period, compared to approximately \$235,000 in the current period.

As a result, we reported a net loss of \$2,032,933 or \$0.00 per common share, and \$1,153,122 or \$0.00 per common share, for the nine months ended June 30, 2022 and 2021, respectively.

The accompanying consolidated financial statements prepared assuming the Company will continue as a going concern, which contemplates the recoverability of assets and the satisfaction of liabilities in the normal course of business. For the nine months ended June 30, 2022, the Company has incurred a net loss of \$2,032,933 and used cash in operations of \$1,240,506. The working capital deficit, stockholders' deficit and accumulated deficit was \$15,663,885, \$15,588,253 and \$34,989,773, respectively, at June 30, 2022. Furthermore, on September 6, 2019 the Company received a default notice on its payment obligations under the senior secured credit facility agreement (see Note 10), defaulted on its Note Payable – Seller in September 2017 and has since defaulted on other promissory notes. As of June 30, 2022 the Company has received demands for payment of past due amounts from several consultants and service providers. It is management's opinion that these matters raise substantial doubt about the Company's ability to continue as a going concern for a period of twelve months from the issuance date of this report. The ability of the Company to continue as a going concern is dependent upon management's ability to further implement its business plan and raise additional capital as needed from the sales of stock or debt. The Company has continued to implement cost-cutting measures and restructuring or setting up payment plans with vendors and service providers and plans to raise equity through a private placement, and restructure or repay its secured obligations. The accompanying consolidated financial statements do not include any adjustments that might be required should the Company be unable to continue as a going concern.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to investors.

Critical Accounting Policies and Significant Accounting Estimates

Our consolidated financial statements and accompanying notes have been prepared in accordance with United States generally accepted accounting principles applied on a consistent basis. The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods.

We regularly evaluate the accounting policies and estimates that we use to prepare our consolidated financial statements. In general, management's estimates are based on historical experience, and on various other assumptions that are believed to be reasonable under the facts and circumstances. Actual results could differ from those estimates made by management.

The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Significant estimates include the allowance for bad debt on accounts receivable, reserves on inventory, valuation of intangible assets for impairment analysis, valuation of the lease liability and related right-of-use asset, valuation of stock-based compensation, the valuation of derivative liabilities and the valuation allowance on deferred tax assets.

We have identified the accounting policies below as critical to our business operations.

Accounts Receivable

Trade receivables are recorded at net realizable value consisting of the carrying amount less the allowance for doubtful accounts, as needed. Factors used to establish an allowance include the credit quality of the customer and whether the balance is significant. The Company may also use the direct write-off method to account for uncollectible accounts that are not received. Using the direct write-off method, trade receivable balances are written off to bad debt expense when an account balance is deemed to be uncollectible.

Goodwill and Intangible Assets

The Company acquired a patent for a new product during the year ended September 30, 2021. The Company capitalized acquisition and related legal fees related to the patent totaling \$44,650. The capitalized amount will be amortized over the five years, following the commencement of related sales. Impairment will be tested annually or as indicators of impairment are available.

Long-Lived Assets

Long-lived assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying value may not be recoverable. Impairment is determined by comparing the carrying value of the long-lived assets to the estimated undiscounted future cash flows expected to result from use of the assets and their ultimate disposition. In instances where impairment is determined to exist, the Company writes down the asset to its fair value based on the present value of estimated future cash flows.

Revenue Recognition

The Company follows Accounting Standards Codification ("ASC") 606, Revenue From Contracts With Customers, which has a five-step process: a) Determine whether a contract exists; b) Identify the performance obligations; c) Determine the transaction price; d) Allocate the transaction price; and e) Recognize revenue when (or as) performance obligations are satisfied.

The Company sells a variety of products to government entities. The purchase orders received specifies each item and its manufacturer; the Company only needs to fulfill the performance obligation by shipping the specified items. No other performance obligations exist under the terms of the contracts. The Company recognizes revenue for the agreed upon sales price when the product is shipped to the customer, which satisfies the performance obligation.

During the year ended September 30, 2021 and the nine months ended June 30, 2022, the Company through its subsidiary Howco entered into contracts to package products for a third-party company servicing the same government customer base. The contracts were on job lot basis as shipped to Howco for packaging. The customer was billed upon completion each job lot at which time revenue was recognized.

The Company sells drones and related products manufactured by third parties to various parties, primarily local government entities. The Company also offers technical services related to drone utilization and performs other services. Contracts for drone related products and services sales will be evaluated using the five-step process outline above. There have been no material sales for drone products or other services for which full compliance with performance obligations has not been met. Upon significant sales for drone products and services and insulation jackets, the Company will disaggregate sales by these lines of business and within the lines of business to the extent that the product or service has different revenue recognition characteristics.

The Company began sales of sanitizing products and services during the nine months ended June 30, 2022. Revenue for this line of business is recognized upon shipment and delivery of training services (as applicable).

Stock-Based Compensation

Stock-based compensation is accounted for based on the requirements of ASC 718 – "Compensation – Stock Compensation", which requires recognition in the financial statements of the cost of employee and director services received in exchange for an award of equity instruments over the period the employee or director is required to perform the services in exchange for the award (presumptively, the vesting period). The ASC also requires measurement of the cost of

employee and director services received in exchange for an award based on the grant-date fair value of the award. The Company utilizes the Black-Sholes option pricing model and uses the simplified method to determine expected term because of lack of sufficient exercise history. Additionally, effective October 1, 2016, the Company adopted the Accounting Standards Update No. 2016-09 (“ASU 2016-09”), *Improvements to Employee Share-Based Payment Accounting*. Among other changes, ASU 2016-09 permits the election of an accounting policy for forfeitures of share-based payment awards, either to recognize forfeitures as they occur or estimate forfeitures over the vesting period of the award. The Company has elected to recognize forfeitures as they occur and the cumulative impact of this change did not have any effect on the Company’s consolidated financial statements and related disclosures.

As of October 1, 2018, the Company has early adopted ASU 2018-7 Compensation-Stock Compensation which conforms the accounting for non-employees to the accounting treatment for employees. The new standard replaces using a fair value as of each reporting date with use of the calculated fair value as of the grant date. The implementation of the standard provides for the use of the fair market value as of the adoption date, rather than using the value as of the original grant date. Therefore, the values calculated and reported at September 30, 2018 become a proxy for the grant date value. The Company utilizes the Black-Sholes option pricing model and uses the simplified method to determine expected term because of lack of sufficient exercise history. There was no cumulative effect on the adoption date.

Derivative Liabilities

The Company has certain financial instruments that are derivatives or contain embedded derivatives. The Company evaluates all its financial instruments to determine if those contracts or any potential embedded components of those contracts qualify as derivatives to be separately accounted for in accordance with ASC 810-10-05-4 and 815-40. This accounting treatment requires that the carrying amount of any derivatives be recorded at fair value at issuance and marked-to-market at each balance sheet date. In the event that the fair value is recorded as a liability, as is the case with the Company, the change in the fair value during the period is recorded as either other income or expense. Upon conversion, exercise or repayment, the respective derivative liability is marked to fair value at the conversion, repayment or exercise date and then the related fair value amount is reclassified to other income or expense as part of gain or loss on extinguishment.

Convertible Notes with Fixed Rate Conversion Options

The Company may enter into convertible notes, some of which contain, predominantly, fixed rate conversion features, whereby the outstanding principal and accrued interest may be converted by the holder, into common shares at a fixed discount to the market price of the common stock at the time of conversion. This results in a fair value of the convertible note being equal to a fixed monetary amount. The Company records the convertible note liability at its fixed monetary amount by measuring and recording a premium, as applicable, on the Note date with a charge to interest expense in accordance with ASC 480 - “Distinguishing Liabilities from Equity”.

Net Loss Per Share

Basic loss per share is calculated by dividing the loss attributable to stockholders by the weighted-average number of shares outstanding for the period. Diluted loss per share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock or resulted in the issuance of common stock that shared in the earnings (loss) of the Company. Diluted loss per share is computed by dividing the loss available to stockholders by the weighted average number of shares outstanding for the period and dilutive potential shares outstanding unless such dilutive potential shares would result in anti-dilution.

Lease Accounting

In February 2016, the FASB issued a new accounting standard on leases. The new standard, among other changes, required lessees to recognize a right-of-use asset and a lease liability on the balance sheet for all leases. The lease liability will be measured at the present value of the lease payments over the lease term. The right-of-use asset will be measured at the lease liability amount, adjusted for lease prepayments, lease incentives received and the lessee’s initial direct costs (e.g. commissions). The new standard is effective for annual reporting periods beginning after December 15, 2018, including interim reporting periods within those annual reporting periods. The adoption will require a modified retrospective approach for leases that exist or are entered into after the beginning of the earliest period presented.

The Company’s subsidiary has renewed the lease for the warehouse and office facility in Vancouver, Washington in May 2020 effective June 1, 2020, which extends through May 30, 2023, and is accounted for under ASC 842. The corporate office is an annual arrangement which provides for a single office in a shared office environment and is exempt from ASC 842 treatment.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Not applicable.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure controls and procedures

We maintain “disclosure controls and procedures,” as that term is defined in Rule 13a-15(e), promulgated by the SEC pursuant to the Securities Exchange Act of 1934, as amended (the “Exchange Act”). Disclosure controls and procedures include controls and procedures designed to ensure that information required to be disclosed in our reports filed under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms, and that such information is accumulated and communicated to our management, including the principal executive officer and principal financial officer, to allow timely decisions regarding required disclosure. Our management, with the participation of the principal executive officer and principal financial officer, evaluated our disclosure controls and procedures as of the end of the period covered by this quarterly report on Form 10-Q. Based on this evaluation, our principal executive officer and principal financial officer concluded that as of June 30, 2022, our disclosure controls and procedures were not effective.

The ineffectiveness of our disclosure controls and procedures was due to the following material weaknesses in our internal control over financial reporting. Currently there is no staff with knowledge of Generally Accepted Accounting Procedures on site at Howco. Since the resignation of our former CFO in July 2017, we have not had a qualified in-house financial accounting expert to maintain our parent company and consolidation level books and records. To remediate this situation, we have engaged outsourced accountants.

Changes in internal control over financial reporting

There were no changes in our internal control over financial reporting during the quarter ended June 30, 2022 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

In connection with the merger with Texas Wyoming Drilling, Inc., a vendor has a claim for unpaid bills of approximately \$75,000 against the Company. The Company and its legal counsel believe the Company is not liable for the claim pursuant to its indemnification clause in the merger agreement.

On February 6, 2018 the Company sent a letter to the previous owners of Howco Distributing Co. (“Howco”) alleging that they made certain financial misrepresentations under the terms of the Stock Purchase Agreement by which the Company acquired control of Howco during 2016. The Company claimed that the previous owners took excessive amounts of cash from the business prior to the close of the merger. On March 13, 2018 the Company filed a lawsuit against the previous owners by issuing a summons. On April 12, 2018, the Company received the Defendants’ answer. On July 22, 2019, the Company sought and was granted a dismissal without prejudice of the lawsuit filed against the previous owners of Howco. The Company and the previous owners are in discussion to settle the matter as of June 30, 2022. An informal oral agreement with the Seller has been made whereby the Company has been paying the previous owners \$3,000 per month since January 2021 in satisfaction of Sellers note payable.

In the suit Drone USA, Inc and Michael Bannon (plaintiffs) vs former Chief Financial Officer or CFO, currently pending in New York State court, the plaintiffs seek to compel the former CFO to meet his obligations under an agreement guaranteeing payments to another former executive. The former CFO filed a cross-claim against the plaintiffs for past due salary. The employment agreement with the former CFO allowed salary payments to be paid in cash or stock. During the year ended September 30, 2021, the Company issued 36,821,330 shares of its common stock for the past due salary and claims that this payment moots the former CFO’s claim for past due salary. The former CFO filed a motion for summary judgement which was denied, then filed an appeal to that order which is now pending..

On April 10, 2019, a former service provider filed a complaint with three charges with the Superior Court Judicial District of New Haven, CT seeking payment for professional services. The Company has previously recognized expenses of \$218,637, which remain unpaid in accounts payable. The Company has retained an attorney who is currently working to address the complaint. On August 9, 2019 the Company filed a motion to dismiss the charge of unjust enrichment. The judge granted the Company’s motion to dismiss.. Pre-trial meeting is scheduled for November 30, 2022. Trial is scheduled for December 14, 2022. The Company, through its attorney, is working to negotiate a settlement

During the year ended September 30, 2019, two vendors (The Equity Group and Toppan Vintage) have asserted claims for past due amounts of approximately \$59,000, arising from services provided. The Company has fully recognized, in accounts payable, the amounts associated with these claims and expects to resolve the matters to satisfaction of all parties.

On December 30, 2020, a Howco vendor filed a lawsuit seeking payment of past due invoices totaling \$276,430 and finance charges of \$40,212. The Company has recorded the liability for the invoices in the normal course of business.. With this vendor and other vendors the company has entered into monthly payment arrangements.

ITEM 1A. RISK FACTORS

Not applicable to smaller reporting companies.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Issuance of Unregistered Securities
