Eyal Cohen, Chief Executive Officer of BOS, stated: "We are pleased to report record revenues and net income for the full year 2025, capping an outstanding year of growth for BOS. We demonstrated sustained business momentum, most notably in our defense related business lines where we continue to see robust demand for both our supply chain and robotics solutions, and maintained our diligent operating discipline.

"Supply chain division revenues grew by 40% during the year, demonstrating the benefit of our global diversification strategy. We continue to focus on expanding our opportunities in this key sector through deeper engagement with existing customers, strategic wins with new customers and entry into additional global markets, such as India, which is a growing hub for subcontracting programs with Israeli defense customers.

"Our RFID division experienced a $665,000 operating loss for the full year, primarily due to a goodwill impairment charge of $1.2 million. Absent this charge, the division would have generated approximately $535,000 in operating income. The ongoing geopolitical tension in Israel since October 2023 negatively impacted the Israeli commercial market, which constitutes the primary revenue base for the RFID division; as a result, goodwill write-offs were recorded totaling $700,000 in 2024 and an additional $1.2 million in 2025. Q4 performance showed a 27% increase in revenues year-over-year, a positive indication that we can return this division to a growth trajectory in 2026."

"Finally, our Intelligent Robotics division continues to deliver steady profitability improvements year-over-year, as well as increased backlog, demonstrating our team's ability to drive operational excellence across all business units.

"Bringing our record year together, we generated strong operating cash flow and working capital performance that increased cash and cash equivalents to a record $11.8 million, providing a solid foundation to support our continued investment in strategic growth."

Cohen concluded: "We continue our policy of issuing a conservative initial outlook, with updates provided as the year progresses. While we maintain strong exposure to the defense markets, ongoing geopolitical tensions lead us to initially project 2026 at a level consistent with 2025 revenues of $51 million and net income of $3.6 million."
